TREE PLANTATION PROGRAMME

Environmental promotion

Knowing the importance of environmental protection and the facts of pollution, the NSS volunteers planted 250 saplings starting from the national highway to the end of Perakalapadu Village on the occasion of world ozone day on 27-09-2018. Till now since 8 years the NSS unit planted more than 2000 saplings in the adopted village and also in the college premises. The NSS volunteers created awareness on importance of tree plantation and global warming to MPUP School children and also to villagers. They visited every house and informed to plant a tree to protect the environment for future generation. All the planted saplings were given protection with the help of cement tree guards. The tree guards were obtained by various donors from the village as well as alumni of MIC and NSS unit. The programme was inaugurated by Mr. Y.Pichi Reddy, MPDO kanchikacherla mandal.

The NSS unit organized a tree plantation program during September 2017 and planted 250 saplings along with tree guards. Many plants were died because of proper watering and many tree guards were fallen down due to cattle pass. The NSS unit has replanted the saplings on day 4 of the special camp and all the tree guards were re arranged properly. Watering was also done on the same day by college water tanker. The volunteers appealed villagers to take care of the plants daily for future greenery.

More than 100 saplings were planted and 50 tree guards were rearranged by the NSS team of MIC.
