Campus Recruitment Training Program/Aptitude Training Program

The Department of Training and Placement in any college holds a prominent position as it engages in running a gamut of activities intended to provide placement assistance to the students. The department endeavors to equip the 'prospective' employees with the required skills: technical, analytical, quantitative, verbal, reasoning and soft skills.

Curriculum has more elective subjects in order to offer a wider perspective for the students to choose from. On other hand, the students would get an opportunity to have exposure to the emerging technologies. Some of the students may even come to a clear understanding such as sub-areas exist in their area of activity which they would visualize their career in those mentioned are

1. Innovative experiments, workshops and projects
2. Projects are hosted in order to get good outcome and, positive compartmentalization of learning and to offer simulated industrial operations.
3. In addition to the above, teachers counsel students individually or in small groups.
4. We maintain competitive magazines and books for the GRE, GATE, TOFEL, IELTS, CAT and annual books for the utilization of Students.

Outcome:-

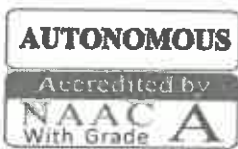

The students have been utilizing the infrastructural facilities and training offered by the college pertaining to higher studies to build their career. At this juncture, it is to be submitted that because of the tremendous increase in the conduct of campus interviews, the number of students appearing at GMAT, TOEFL, GRE, IELTS etc., has come down considerably. Many of those students appearing at the said examinations for executing higher studies in abroad secured respectable ranges and score during the last 3 years.
