## Department of Computer Science and Engineering

**Academic Year: 2019-20**

**Name of the Event:** PYTHON PROGRAMMING

**Date of the Event:** 19-07-2019 to 27-07-2019

**Resource Person:** Talentio Solutions India Pvt Ltd

**Name of the coordinator:** Ms. K Vinaya Sri Bai, Asst Professor, Dept of CSE

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 144

**OBJECTIVE:** The course is designed to provide basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language.

**OVERVIEW:** Python is a widely used general-purpose, high level programming language. It was created by Guido van Resume in 1991 and further developed by the Python Software Foundation. It was designed with an emphasis on code readability, and its syntax allows programmers to express their concepts in fewer lines of code.

**WHY TAKE THIS COURSE:** Python has been voted for the most favorite programming language of all time. It is undoubtedly beating other programming languages. It has been used for developing almost every kind of applications whether it is web applications or game applications. Numerous programmers have increased the use of Python programming languages and it is certainly used worldwide. Python programmers would be the most demandable in the future of IT industries which makes Python future brighter.

e mail: dvzhamic@micttech.ac.in, Website: www.micttech.ac.in

## LEARNING OUTCOMES

After completing this course the students will be able to demonstrate the knowledge and ability:

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples and dictionaries in Python programs.
- To learn how to identify Python object types.
- To learn how to use indexing and slicing to access data in Python programs.

## **Department of Computer Science Engineering**

**Academic Year: 2019-20**

**Name of the Event:** WIPRO Training

**Date of the Event:** 09-09-2019 to 16-09-2019

**Resource Person:** Talentio Solutions India Pvt Ltd

**Name of the coordinator:** Mr. K Vinaya Sri Bai,  
Asst Professor, Dept of CSE

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 115

### **Description:**

The Department of Training & placement cell organized “WIPRO Training”, and is specially meant for engineering final year students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like aptitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies.

The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

**Topics covered:** Wipro Turbo Quants, Wipro Turbo Verbal English, Wipro Turbo Logical Reasoning and Wipro Turbo Technical Computer coding.

**Academic Year: 2019-20**

**Name of the Event:** In House Training

**Date of the Event:** 05.07.2019 to 30.07.2019

**Resource Person:** Sri D.Panduranga Rao, CEO  
MIC COLLEGE OF TECHNOLOGY

**Name of the coordinator:** Ms. K Vinaya Sri Bai, Asst Professor, Dept of CSE

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 71

**Objective of the Course:** To help students improve their C programming skills and also to help develop logic for the given problem. It will help students to face placement.

**Outcome of the Course:** Students will be able to develop C programs for the given problem.

## CONTENTS:

- Information about basic concepts of the C programming language such as structure of C programs, usage of different data types and their variables followed by usage of operators with the variables was imparted to students.
- Information on decision control statements such simple if, if- else and if-else-if ladder and go to statement was imparted to students.
- Information on loops such as while loop, do-while loop and for loop and break and continue was imparted to students. Students were made to do the programs on them and some prominent problems were solved. Instruction on usage of functions in the C programming language was given to students. Also the different parameter passing techniques i.e. pass by value and pass by reference methods were discussed. Students were made to execute programs on these techniques.
- The concept of recursion was introduced to students. Programs on some of the most prominent problems on recursion were taught to students. Followed by introduction to arrays in C which covered utilization of array as function parameter.
- The concepts of Matrix were instructed to students. Operations on arrays and matrix were taught. Students were made to execute the programs on arrays and matrices.
- Concept of Strings was introduced to students. Different operations on strings using inbuilt functions and without using in-built functions were taught to students.
- Concept of pointers was introduced to students. Operations using pointers was taught. Usage of pointers as function parameters was told to students.

Devineni Venkata Ramana & Dr.Hima Sekhar  
**MIC College of Technology**  
(Approved by AICTE & Permanently Affiliated to JNTUK, Kakinada)  
Kanchikacherla - 521180, Krishna Dist, A.P, India.

e mail: dvzhemic@mictech.ac.in, Website: www.mictech.ac.in

- Students practiced the programs on these concepts. Advanced concept in C i.e. dynamic memory allocation using pointers and little introduction to data structures was given to the students.
- Questions related to placement were practiced with explanation to the solutions.

**Feedback / Suggestions:** Students are participated in enthusiastic manner. Planned to organize every year.

## **Department of Computer Science and Engineering**

**Academic Year: 2019-20**

**Name of the Event:** Aptitude, Reasoning and verbal Ability

**Topic:** Aptitude, Reasoning and verbal Ability

**Date of the Event:** 13-06-2019 to 22-06-2019

**Name of the Coordinator:** Mrs. K Vinaya Sri Bai

**Target Audience:** III B. Tech Students

### **Description:**

The Department of Training & placement cell organized “Aptitude, Reasoning and verbal Ability”, and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

**Outcomes of the Event:** After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Acquire satisfactory competency in use of VERBAL REASONING
