## **Department of Mechanical Engineering**

**Academic Year: 2021-22**

**Name of the Event:** Java Programme

**Date of the Event:** 01-02-2022 to 12-03-2022

**Resource Person:** Byte XL

**Name of the coordinator:** D.Divya  
**Asst Professor, Dept of ME**

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 100

### **Description:**

The Department of Training & placement cell organized “Byte XL”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

**Outcome of event:** After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Develop effective communication skills (spoken and written).

**Feedback / Suggestions:** Students are participated in enthusiastic manner.

Planned to organize every year.

## Feedback Form

Course Name: JAVA PROGRAMMING

Duration of the Course: 1-2-2022 to 12-03-2022

*(Please do not write your name. You are free to respond objectively)*

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

*This Workshop is very useful & highly beneficial for Personal & Professional Development.*

2. Please give your comments on the process/methods during the program.

*By following their process & Method, Developers can effectively Create, test, & maintain Java programs, are reliable & Efficient.*

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

*I can highlight some key input areas like User Input, Data Structures & Algorithms, Exception handling, Concurrency & Multithreading.*

4. In what input areas would you prefer to have further training?

*Data Structures & Algorithms  
Concurrency & Multithreading*

5. Further Comments (if any)

## **Department of Mechanical Engineering**

**Academic Year: 2021-22**

**Name of the Event:** Python Programme

**Date of the Event:** 18-04-2022 to 24-04-2022

**Resource Person:** Byte XL

**Name of the coordinator:** D Divya  
**Asst Professor, Dept of ME**

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 83

### **Description:**

The Department of Training & placement cell organized “Byte XL”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

**Outcome of event:** After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Develop effective communication skills (spoken and written).

**Feedback / Suggestions:** Students are participated in enthusiastic manner.

Planned to organize every year.
