## **Department of Mechanical Engineering**

**Academic Year: 2018-2019**

**Name of the Event:** ATONOMOUS ROBOTIC WORKSHOP

**Date of the Event:** 28-08-2018 to 29-08-2018

**Resource Person:** Training and Placement

**Name of the coordinator:** D DIVYA Asst Professor, Dept of ME

**Target Audience:** IV B. Tech Students

**Total no of Participants:** 100

### **Description:**

The Department of Training & placement cell organized “Training and Placement”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.
