Certiport Authorized Test Center (CATC™) Agreement

2. Retest Policy

CATC System Administrators are required to enforce the Certiport's retest policy:

Certiport provides many exams that require different retest policies. These policies must be adhered to and enforced by the CATC, and can be found at <https://certiport.pearsonvue.com> by selecting "Exam Policies" under the "Test Candidates" menu item and then selecting the link for "Exam Retake Policy".

Examinees participating in Exam beta-testing may take each beta-exam only once unless otherwise authorized by program administrators.

3. Ensuring Exam Validity

Certiport conducts periodic data forensics to identify patterns of aberrance in Exam results that help detect cheating or content piracy. For example, forensic indicators such as types of responses, latency, pass rates, and retakes may reveal patterns of cheating, collusion or piracy. However, prevention and early detection are critical elements that require the close cooperation of CATCs. Therefore, in addition to relying on CATCs to provide industry-standard monitoring during testing, Certiport requires that CATCs ensure that Certiport System Administrators ("Administrators") and Certiport Exam Proctors ("Proctors") are sufficiently trained to provide good quality oversight of testing. Training must include familiarizing staff with prevalent methods used to cheat, learning what measures to implement to prevent cheating and how to identify cheating when it does occur.

Administrators and Proctors who observe violations of rules must immediately document and report all relevant facts supporting the conclusion that a violation occurred to the appropriate Certiport Authorized Distributor or to Certiport customer service representatives. Reports should include the date, time and location of the incident, name of Examinee, name, and version of Exam taken.

4. Accommodation of Disabilities

As a worldwide provider of Certification Exams, Certiport is committed to ensuring that those persons with the desire to certify their proficiency in the use of computers should have the opportunity to do so. Certiport, accordingly, embraces the Americans with Disabilities Act (ADA) as well as other global accommodations for disabilities designed to advance those goals. CATCs are required to comply with local laws requiring the reasonable provision of access to Examinees with disabilities.

In keeping with this commitment, Certiport will expand and refine its Products and Services to enable greater numbers of Examinees with documented disabilities to register for, schedule and take Exams.

Certiport and CATCs require advance notification of requests for accommodation(s) as well as a reasonable amount of time to review and implement such requests. Certiport and CATCs are not obligated to accommodate Examinees with language limitations unrelated to a documented disability (i.e.; English as a second language, literacy, etc.), nor to provide unlimited time for the

Certiport Authorized Test Center (CATC™) Agreement

completion of Exams that are designed to certify not only knowledge but also efficiency in the use of desktop computers.

Requests for Accommodations of Disabilities

Further information can be found at <https://certiport.pearsonvue.com> by clicking on the "Educator Resources" drop-down menu, then selecting "Exam policies", and then selecting the link for "Accommodation of disabilities". Examinees who wish to request accommodations may do so by following the directions under the "Process to Apply" section of the *Accommodation of Disabilities* page.

Test accommodations are individualized and Certiport will consider accommodations on a case-by-case basis. Examinees who have been notified that their request for an accommodation has been approved by Certiport must notify the CATC of the accommodation when scheduling the exam. Examinees should allow for additional time when requesting and scheduling accommodations.

 4. The cost incurred by each party with respect to these discussions, and all subsequent negotiations of the proposed agreement, whether resulting in an agreement or not, and including without limitation legal and attorney, technical and research, financial and other advisory fees, will be borne solely by the party which incurred them.

- M.** In the event of any dispute or difference arising out of or relating to this MOU or the breach thereof, the Parties hereto shall use their best endeavors to settle such disputes or differences amicably. To this effect they shall consult and negotiate with each other in good faith and understanding of their mutual interests to reach a just and equitable solution satisfactory to both Parties, with or without the assistance of a mediator. If the Parties do not reach such solution within a period of thirty (30) days, then the dispute shall finally be settled and determined by arbitration in accordance with the Arbitration and Conciliation Act, 1996 or any amendment thereof. The place of arbitration shall be Bangalore and the language used in the arbitral proceedings shall be English. Arbitration shall be conducted by an arbitral tribunal consisting of three arbitrators. Each of the Parties shall nominate an arbitrator and the third arbitrator shall be nominated by the aforesaid two arbitrators. The arbitral award shall be in writing and shall be final and binding on each Party and shall be enforceable in any court of competent jurisdiction.
- N.** Nothing contained in this MOU will be deemed to grant any ownership in, or license to, any patents, inventions, copyrights or trademarks of either party, whether made under this MOU or not. Each party will own any intellectual property created by it during the period of the MOU. In case a party wants to use the other party's intellectual property as created above for internal purposes, it would have to acquire appropriate licenses and rights from the other party, under a separate agreement. Each party will continue to own any pre-existing material contributed by it.

This MOU supersedes all prior proposals and discussions and is the complete and exclusive statement of the understanding between IBM and NMIC College of Technology as to the subject matter.
