Dear Durga Malleswari,

Congratulations on your acceptance to the University of New Haven. You have been selected by the admissions committee as an outstanding candidate for our prestigious Dean's Scholarship. On behalf of the admissions committee I am pleased to offer you a **10% Dean's Scholarship** for the Spring 2023 semester.

The terms and conditions of the award are listed below:

- The award can only be applied toward the program you have been accepted to as of the date of award letter.
- The award cannot be deferred to a future term and is non-transferable between programs.
- During the period of this scholarship you must be registered as a full-time student with a maximum of 12 credits during each of the spring and fall terms.

If the combination of awards exceeds the cost of tuition the University award/discount will be reduced to no longer exceed the cost of tuition. Exceptions may apply based on external agency policies.
- Complete the Dean's Scholarship Acknowledgement Form to accept the award.
- Failure to accept the scholarship will result in the withdrawal of the award.

**LETTER OF RECOMMENDATION**

The first impression that one forms of Mr. Shaik Abdul Baasith is that, of a person endowed with technical soundness and intelligence to put it to optimum use. He combines intelligence with imagination and this consequently makes him good in all things practical. It would be right to say that the qualities like dedication and hard work are already present in him.

I taught him the course "Compiler Design" in 7<sup>th</sup> semester and have been instructor for laboratory courses like "Computer Networks". As his professor, I can indubitably say that he has been among the finest under my tutelage. His diligence combined with his intelligence has contributed towards his good performance throughout his academic years in college. Looking at his personality in a holistic way, I would rate him in the top 20% students of his class.

During my frequent interaction with him, I have noticed that he is resourceful individual and works well with little supervision. He also has the rare quality of time management and strikes the right balance between his academic and personal commitments. He is enthusiastic during discussions and his interest is evident through the projects and assignments that he undertakes. He is willing to go ahead and get a comprehensive picture of things, rather than acquiring a surface understanding.

Considering his potential, talent and eagerness to learn, I feel Mr. Baasith is a candidate to pursue higher studies. In addition, I see in him a natural propensity towards Research studies and to work efficiently in such environment. So, I strongly recommend him for graduate studies in your university with full financial assistance

## LETTER OF RECOMMENDATION

I am happy to pen this recommendation for Mr. Gopi Kiran Kommineni with whom I foster a close interaction for the past 2 years. He is one of the brightest and enthusiastic students I ever taught. Gopi took my subjects, "Computer Networks" and "Software Testing Methodologies", in his junior and senior years. From the tenure of my observation and interaction, I can say that Mr. Gopi Kiran is the most ambitious and industrious person in my class.

I appreciate the contribution he made to my class in making it a more interactive discussion rather than a conventional classroom teaching. He used to ponder me with many questions and was always the first person to complete the assignments in the class. I also helped him in some of his projects and was amused by the way he researched for accomplishing his projects. Apart from academics his dedicated work for creation of "Personality Development Club" which helped in developing interpersonal skills and also in getting rid of fear of public speaking is commendable. If it is not for him and his team many of our students wouldn't have benefitted from that club it was so successful that other departments of our college also started such kind of clubs for helping students.

His prospects as a researcher are strongly complemented by experimental skills in the laboratory. His grasp over the language, as well as his writing abilities, shall stand him in good stead in subsequent research and teaching assignments. His curiosity and his stand to put things to perfection shall surely be an advantage. His role in various events organized by our department is appreciable. Furthermore, he has complaisant manners and a good character.

He is a student of high moral and ethical standards. I am sure he will put forth all his effort into any task that he confronts. By furnishing him with a graduate program in your University you will not only give him an opening for career headway but also help him reach the supreme level of accomplishment. With full confidence in his abilities, I strongly recommend Mr. Gopi Kiran Kommineni for his studies in your esteemed University, with suitable financial aid. I convey my best wishes to Mr. Gopi Kiran in his endeavour to acquire knowledge through higher studies.
