Academic Year: 2018-19

Topic: Aptitude, Reasoning and verbal Ability

Date of the Event: 26.06.2018-30.06.2018

Target Audience: B. Tech (CSE, ECE, MECH, CIVIL) Students

Total no of Participants: 200

Description:

The Department of Training & placement cell organized “Aptitude, Reasoning and verbal Ability”, and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

Outcomes of the Event:

After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of Logical Reasoning Skills
4. Acquire satisfactory competency in use of Verbal Reasoning

Feedback Form

Course Name: **Aptitude, Reasoning & Verbal Ability**
Duration of the Course: **26/6/18 to 30/6/18**

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

In this workshop we learnt Aptitude, Reasoning, Verbal Ability which are useful for attending Interviews, and written tests

2. Please give your comments on the process/methods during the program.

The process of program is very good we solved many problems related to Aptitude, Reasoning.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Reasoning, Verbal Ability.

4. In what input areas would you prefer to have further training?

coding classes, Java

5. Further Comments (if any)

This workshop is good and useful for learning how to solve problems related to Aptitude, Reasoning, Verbal Ability

programmer during the coding phase.

The Department of Training & Placement cell organized "Coding Classes (Phase-I & Phase-II)", and is specially meant for engineering final students. During the Coding phase the design of the software system is translated into a programming language format which is used by a computer, this is the main objective of coding. The aim of the coding is to produce high quality system which can be performed in any situation. The programme removes all the errors related to syntax and format and all the logical errors which find in the coding. The aim of the coding is to produce high quality system which can be performed in any situation. The coding. Description:

The Department of Training & placement cell organized “WIPRO Training”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Topics covered: Wipro Turbo Quants, Wipro Turbo Verbal English, Wipro Turbo Logical Reasoning and Wipro Turbo Technical Computer coding.

Description:

The Department of Training & placement cell organized “Infosys Training”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcome of event: After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Develop effective communication skills (spoken and written).

7/12/18 to 13/12/18

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

In this sessions we learnt coding,
useful for attending job Interviews, written
tests.

2. Please give your comments on the process/methods during the program.

The process of program is very good
we learnt coding

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

coding skills.

4. In what input areas would you prefer to have further training?

coding classes- python

5. Further Comments (if any)

This workshop is good for learning coding
