MICOSA

The Institution has an alumni association called "MIC OLD STUDENTS ASSOCIATION (MICOSA)" MICOSA. MICOSA was formed in 2006 when the first batch (2002-06) graduated. This association was initiated by the then Principal, Prof N .Krishna and Vice Principal Prof. D. Panduranga Rao.

About MICOSA

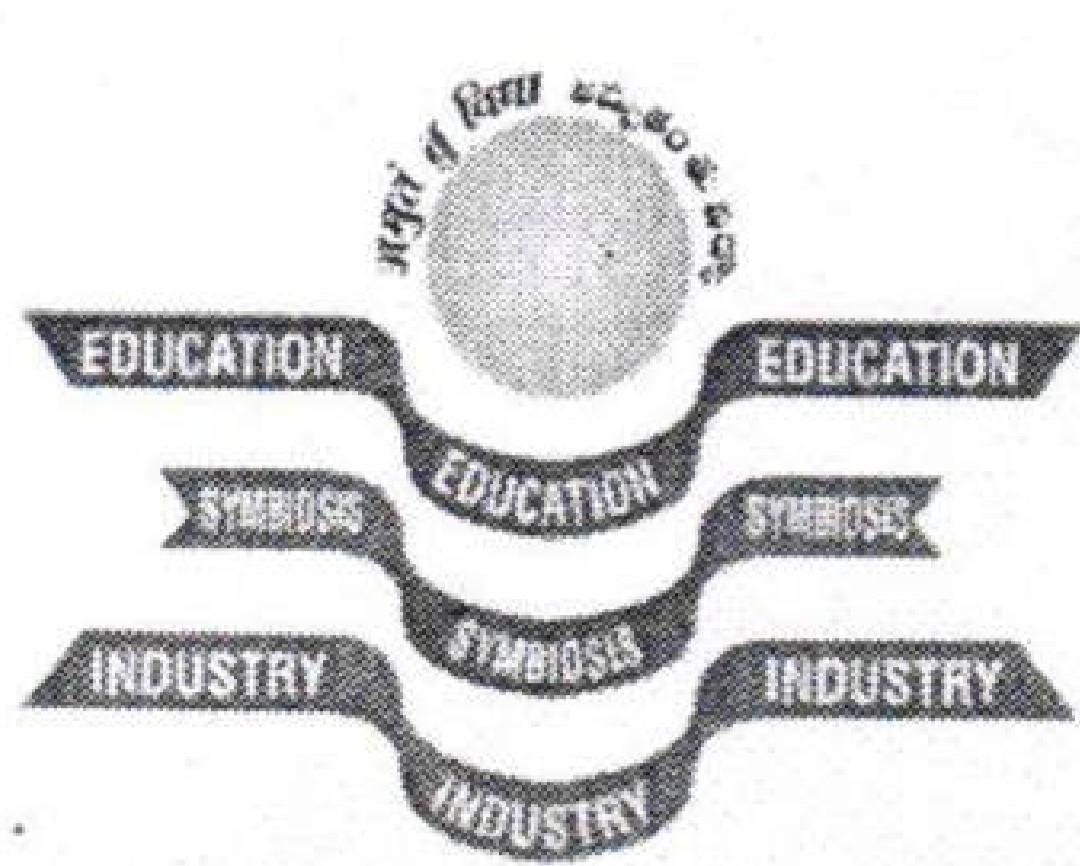

"Success of an institute can be measured by the success achieved by its alumni." The college Alumni, working in different prestigious institutes/industries across the globe, are highly successful in turning the seeds of their knowledge acquired in the college into the fruits of reality. The main aim of the association is to maintain a strong bond between MIC family and its alumni.

Objectives of MICOSA

1. To interact regularly with the members of the Alumni to recognize and appreciate their professional progress
2. To foster healthy relationship between the Alumni, current students and faculty members of the college
3. To organize informative sessions by renowned Alumni to guide current students and recent graduates in shaping their career
4. To provide a right platform for continuous educational enrichment for the alumni and the present students of the college

MIC Alumni Activities

To fulfill its objectives, the MIC Alumni Association (MICOSA) aims to conduct the following activities:

Devineni Venkata Ramana & Dr.Hima Sekhar
MIC College of Technology

(Approved by AICTE & Permanently Affiliated to JNTUK, Kakinada)

Kanchikacherla - 521180, Krishna Dist, A.P, India.

Phone : 08678 - 273535, 273623, Fax: 08678 - 273569

e mail: dvrhsmic@mictech.ac.in, Website: www.mictech.ac.in

AUTONOMOUS

NBA-Accredited
B.Tech (CSE|ECE|ME)

Accredited by
NAAC With Grade A

1. To conduct Alumni meets and promote regular interaction between Alumni and students
2. To provide professional guidance and employment opportunity for the novice MIC Engineers
3. To conduct informative guest lectures by successful Alumni to throw light on the industrial needs and avenues open for right settlement
4. To enter into MOUs and arrange internship or industrial visits in prominent organizations to bridge the gap between academics and industries

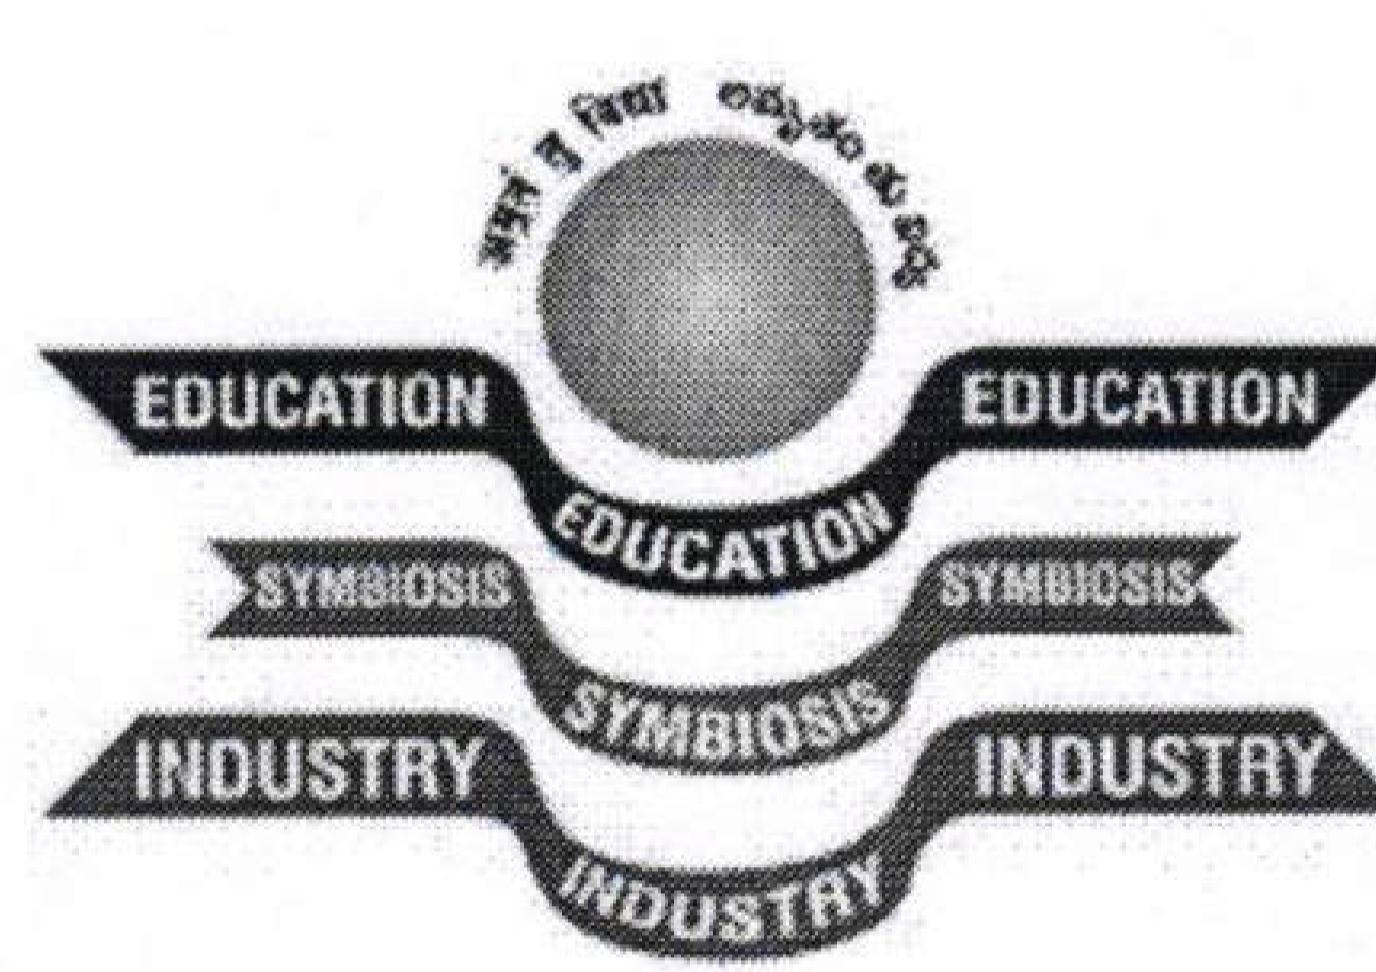

MICOSA is proactively guided and led by a President, Vice-President, and Secretary who looks after the activities of the association. There is an advisory body from each department for giving constructive guidance and suggestions. These are part of the Executive Committee. One faculty from each department is a member of the Alumni Committee. They are responsible for organizing different activities involving alumni of the department. Secretary ensures that alumni meets are planned and organized from time to time.

The institute believes that an active alumni association has the potential to significantly contribute to both academic concerns and student welfare. As a result of this, alumni are encouraged to participate in the various statutory committees that the institute has to offer. The institute encourages interactions between students and alumni so that current students can benefit from the alumni's extensive knowledge and experience to further their own education.

The alumni involve actively in the following activities:

- Curriculum development and revision
- Deliver Guest lectures
- Career guidance to enlighten the students on different career options

Our Alumni Association's role in the overall development of the institute is both supportive and constructive.

SK.ABDUL KHADAR

Mechanical Engineer

2010-2014

Senior Consultant

Larsen & Toubro Infotech

- MIC college offers the best of the facilities, with attractive campus and sophisticated labs and equipment.
- I learnt Soft skills @MIC which is helping me in my personal and professional life.
- I enjoyed my journey at MIC.

T . RAMA KRISHNA

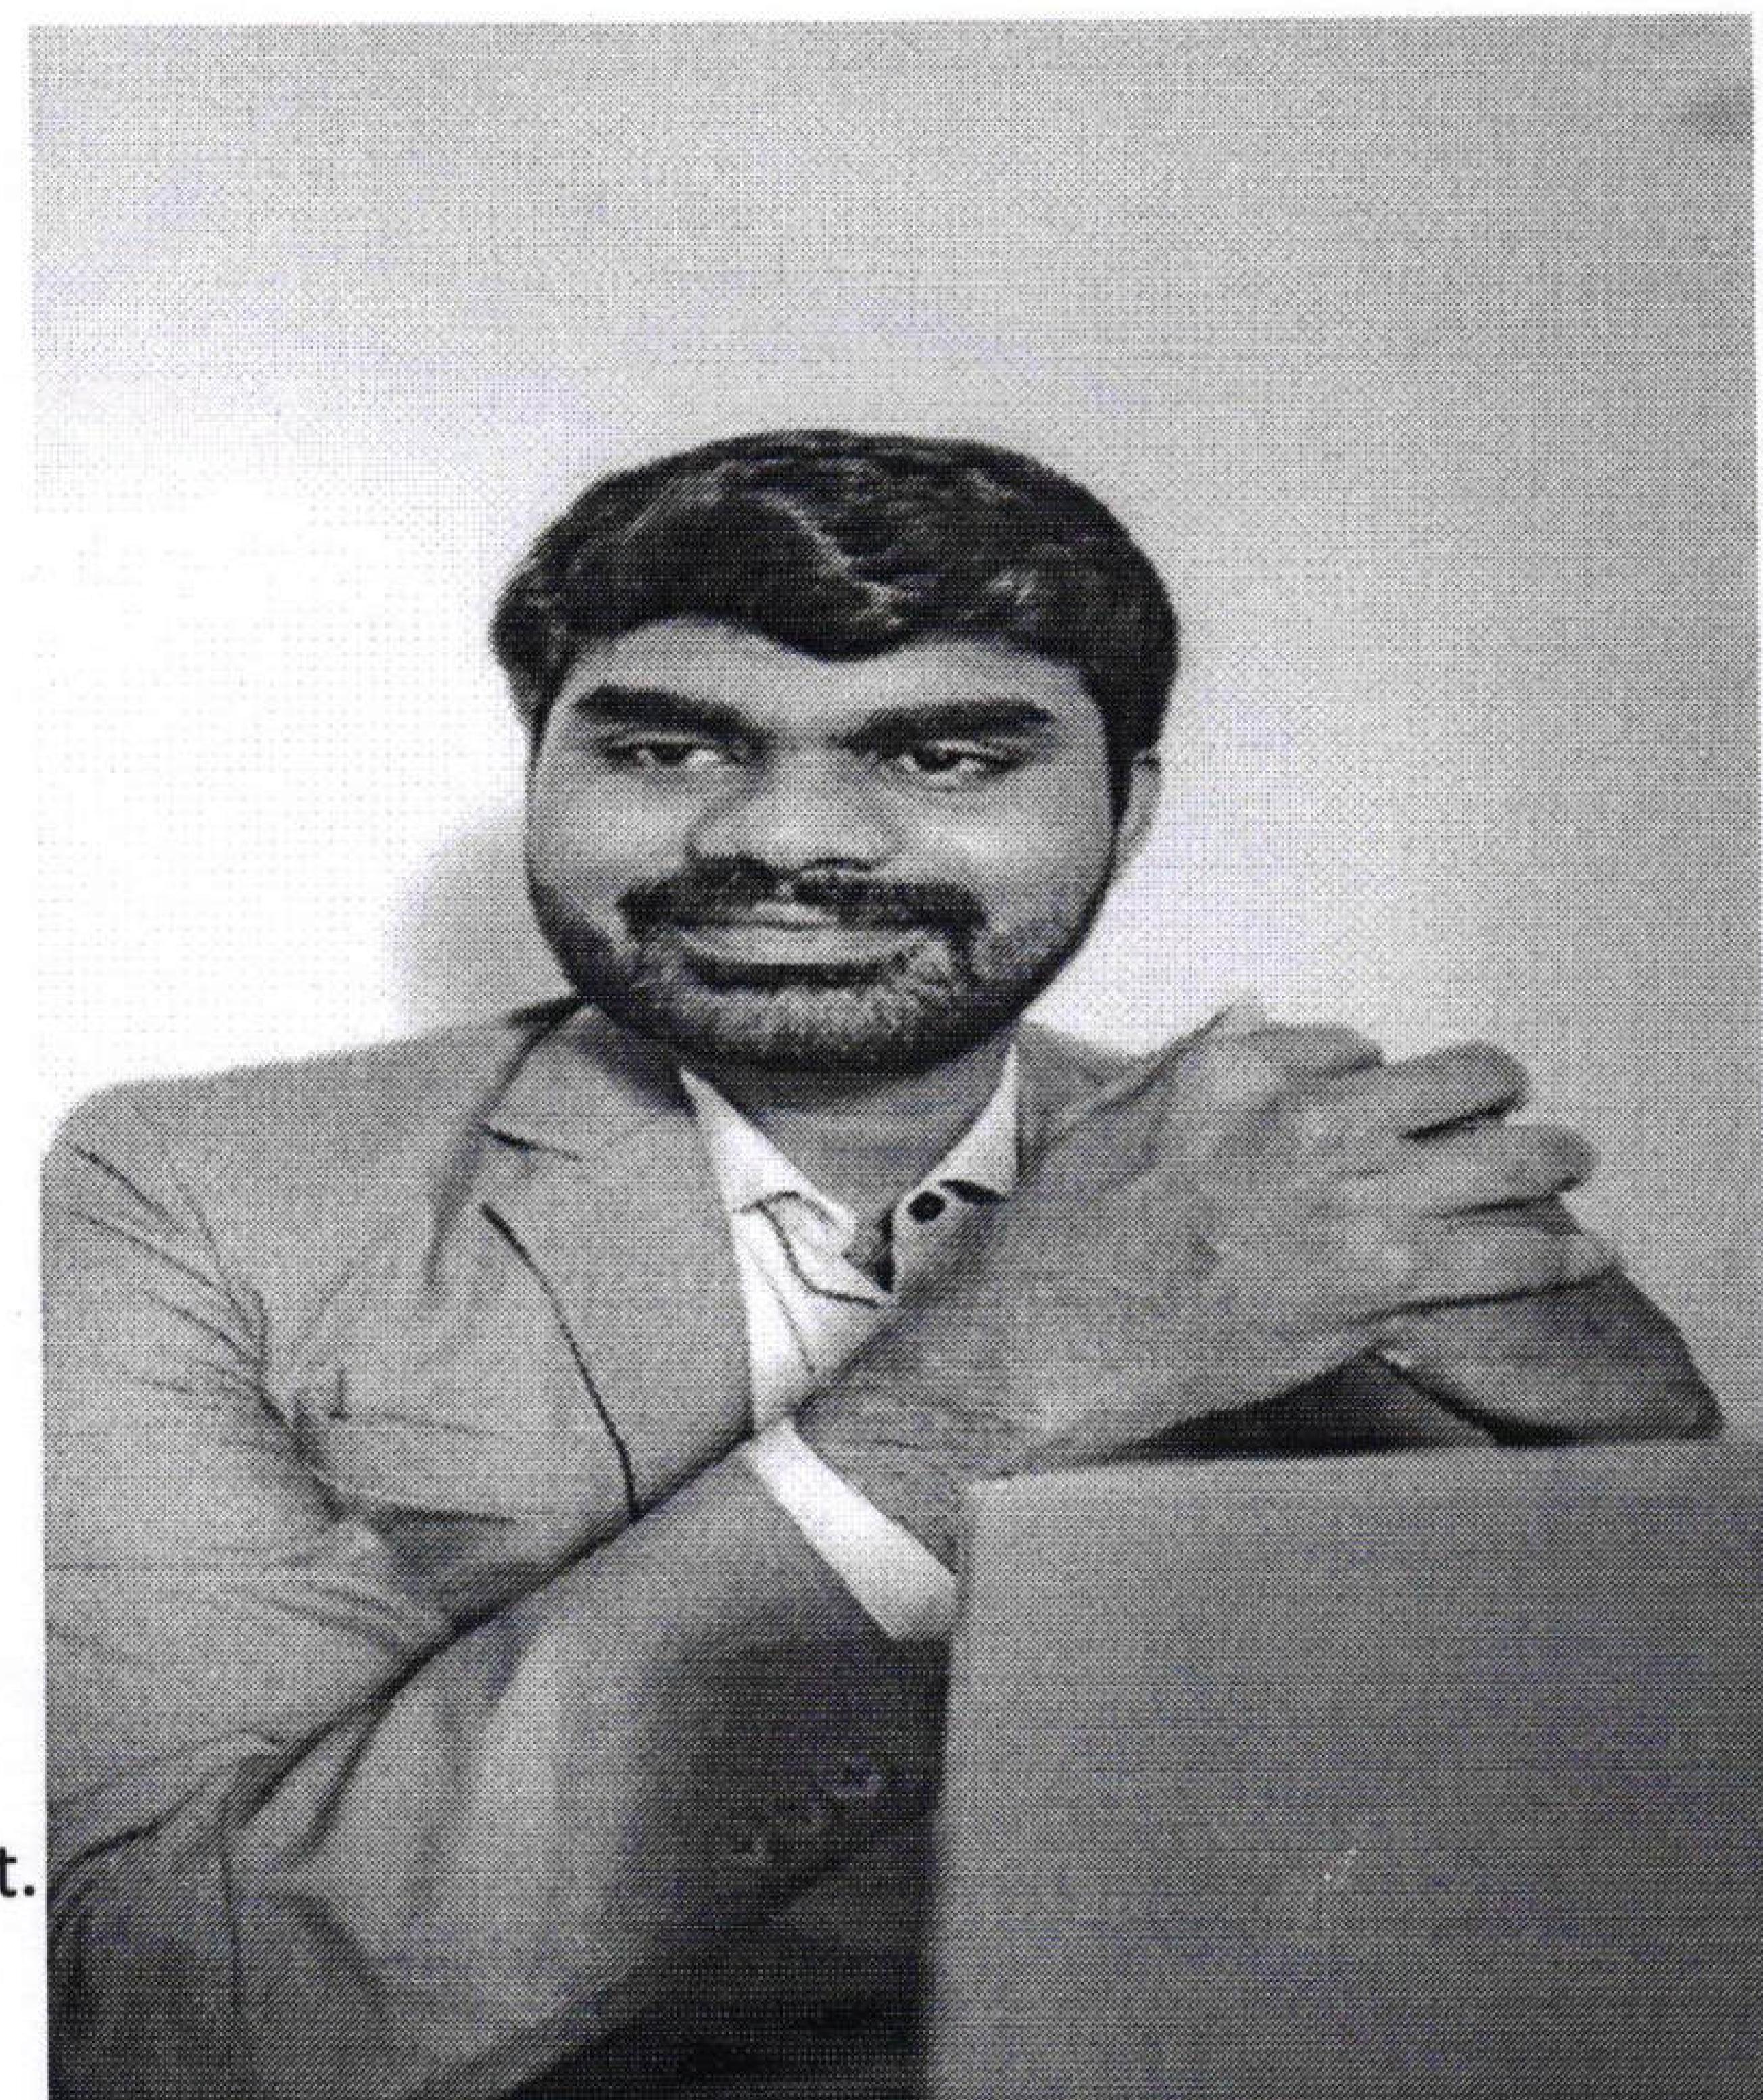

Academic year : 2015-2017

Sr.HR Consultant

ObjectWin Technologies

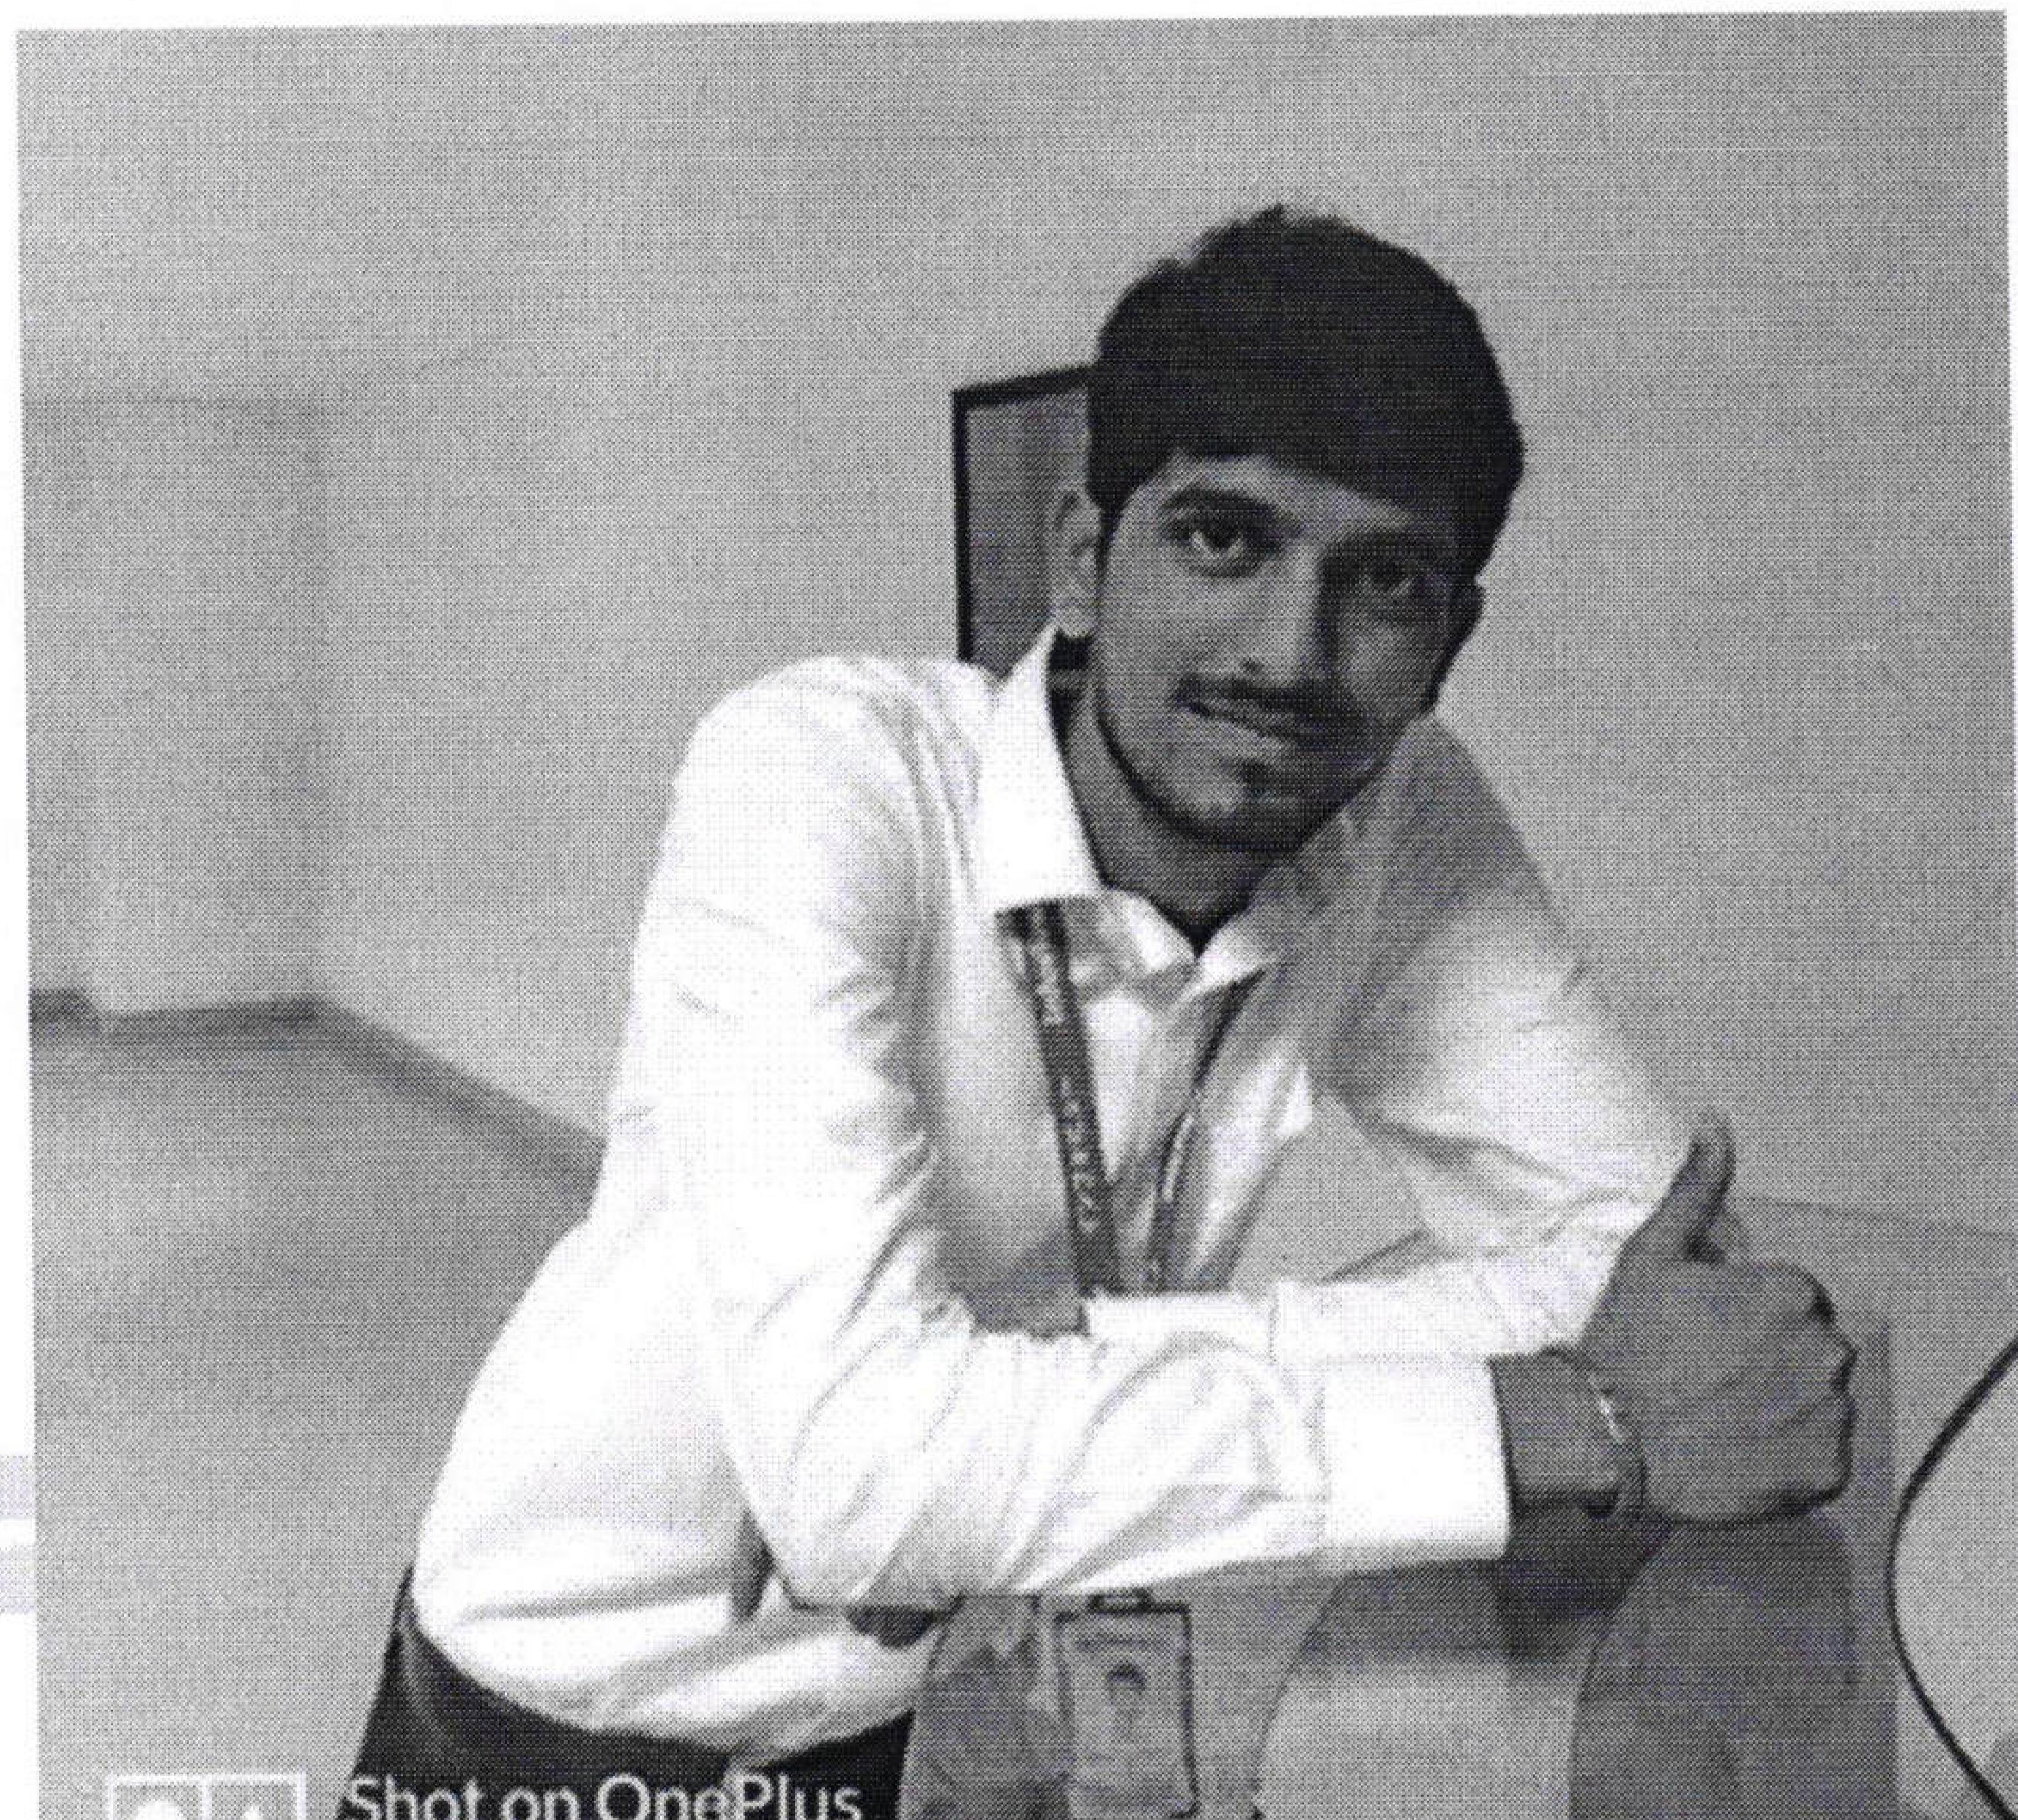

"Some beautiful paths can't be discovered without getting lost."

- It was my luck to complete my Masters in MIC college of Technology.
- My Two years at MIC have been a wonderful experience of learning with prolific exposure to outside world.
- Huge respect and love for entire faculty members and department. It's their efforts that make me to count myself into better professionals

NAGENDRA BABU P TECH HEAD, HCL, CHENNAI

- It gives me great pleasure to say with pride that I have completed my B.Tech (Electronics and communication engineering) from School of Infrastructure, (DVR & Dr. HS MIC College of Technology). The relationship between faculty and student is very cordial, which gave me an opportunity to excel in my studies. The four years spent here were splendid and has helped me to grow better professionally & personally. I would like to thank all the faculty and staff for making me a “Better Person”.

<p>SandeeP Taneeru Vice President, Citibank, Malaysia. Kualalumpur, Malaysia.</p> <p>Year Passed out: 2006 Regd No: 02H71A0539</p> <ul style="list-style-type: none"> • My 4 years of college days were always memorable. Our College provided good placement opportunities combined with many internship programs, seminars by expertise and other placement programs. I established my leadership, time management and team skills and had also been able to advance these skills to a whole new level. Labs were very well-equipped with efficient staff. My final year project where I got opportunity to work in MIC electronics really helped me to get glance of corporate culture. • Faculty members and Placement cell officers in the college were very helpful. They always tried to motivate the students and gave practical knowledge. I enjoyed our annual sports event and Annual Fest organized by the faculty and students. • Here in MIC I had learnt that success is a journey, not the destination. Along with academics, a lot of different activities on campus allowed me to polish my talents and overall development. There were various committees that allowed me the opportunity to connect with people and had good work experience. I had learnt not just to become a good engineer but a good person. • Overall it was a great experience and lifetime memory. 	 <p>I did my mechanical engineering in MIC college from 2008-2012. Academically, we had very good professors who were ever ready to guide us. Some of the concepts I had learned, I still remember and apply them till date. We had amazing time with college events, workshops, sports day, industrial visits etc., which were both educational and fun. Some of my most favourite memorable days are lab works and project days, where we got hands on experience of the concepts. A big thank you to all my professors who motivated and inspired me to pursue my dream career in mechanical engineering.</p> <p>Sridevi Kasturi MECH 2008-2012</p>	 <p>MIC college offers the best of the facilities, with attractive campus and sophisticated labs and equipment. The faculty members are highly supportive of the students not only in academics but also in motivating them to grow in life. I can vouch for the fact that at MIC we can have an amazing campus life.</p> <p>Sk. Abdul Khadar Mechanical Engineer 2010-2014 Senior Consultant Larsen & Toubro</p>

B.Tech CSE
Legato Health
Technologies
Software Engineer

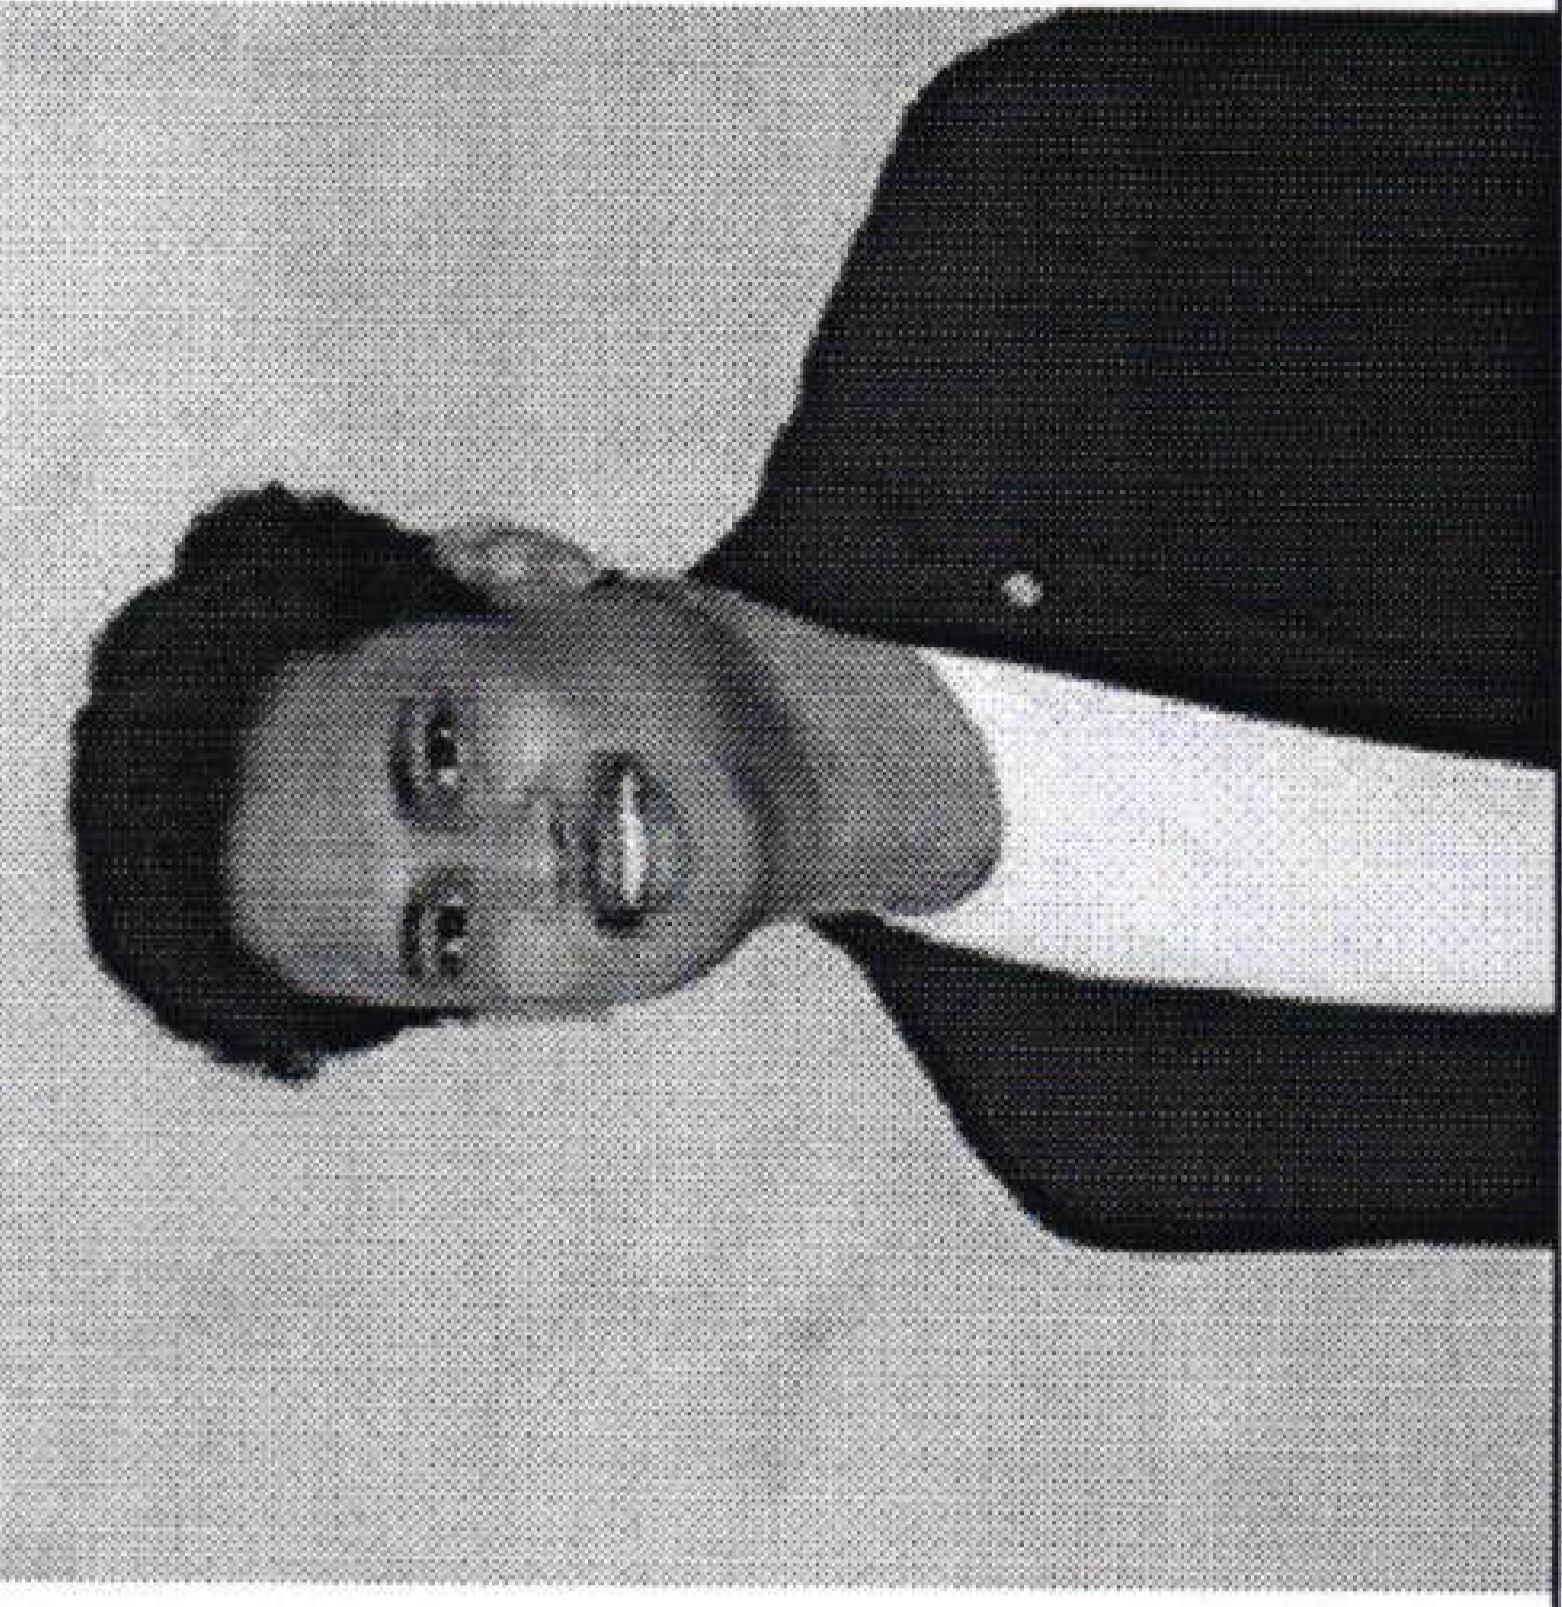

MIC College of Technology. Now I work for Legato as a software engineer. I'm thrilled to share my time as a student at MIC. On the first day of the college, I had no idea how my college would be, if I would be able to complete my studies without difficulty, or who my teachers would be. But as the days went, with the guidance of my tutors, I began to understand all of my confusions. They are extremely encouraging and consistently enhance our self-esteem.I also learned how to better myself, how to manage my activities, and the benefits of participating in technical events under the supervision of my faculty. Teachers at MIC keep an eye on each and every student. I am extremely grateful for my professors' trust in me, as it is this trust that has enabled me to achieve my objectives.MIC has a pool of respected teaching staff with extensive teaching expertise and the ability to accurately explain concepts in a clear manner. During my time at MIC, I used to go to my faculty with even petty doubts. They are eager to answer our questions and help us comprehend the subject in the simplest way possible. With the support of the teachers and their positive response to solve my doubts, I won "Gold Medal" for securing first in the Department of Computer Science. In addition to learning, MIC also organizes various technical and non-technical activities to develop each student's talents. I am an example for this. At first I was scared to speak in a group, but because of the opportunities I got and made use of at MIC, I participated in many technical activities and enhanced my technical and presentation skills.

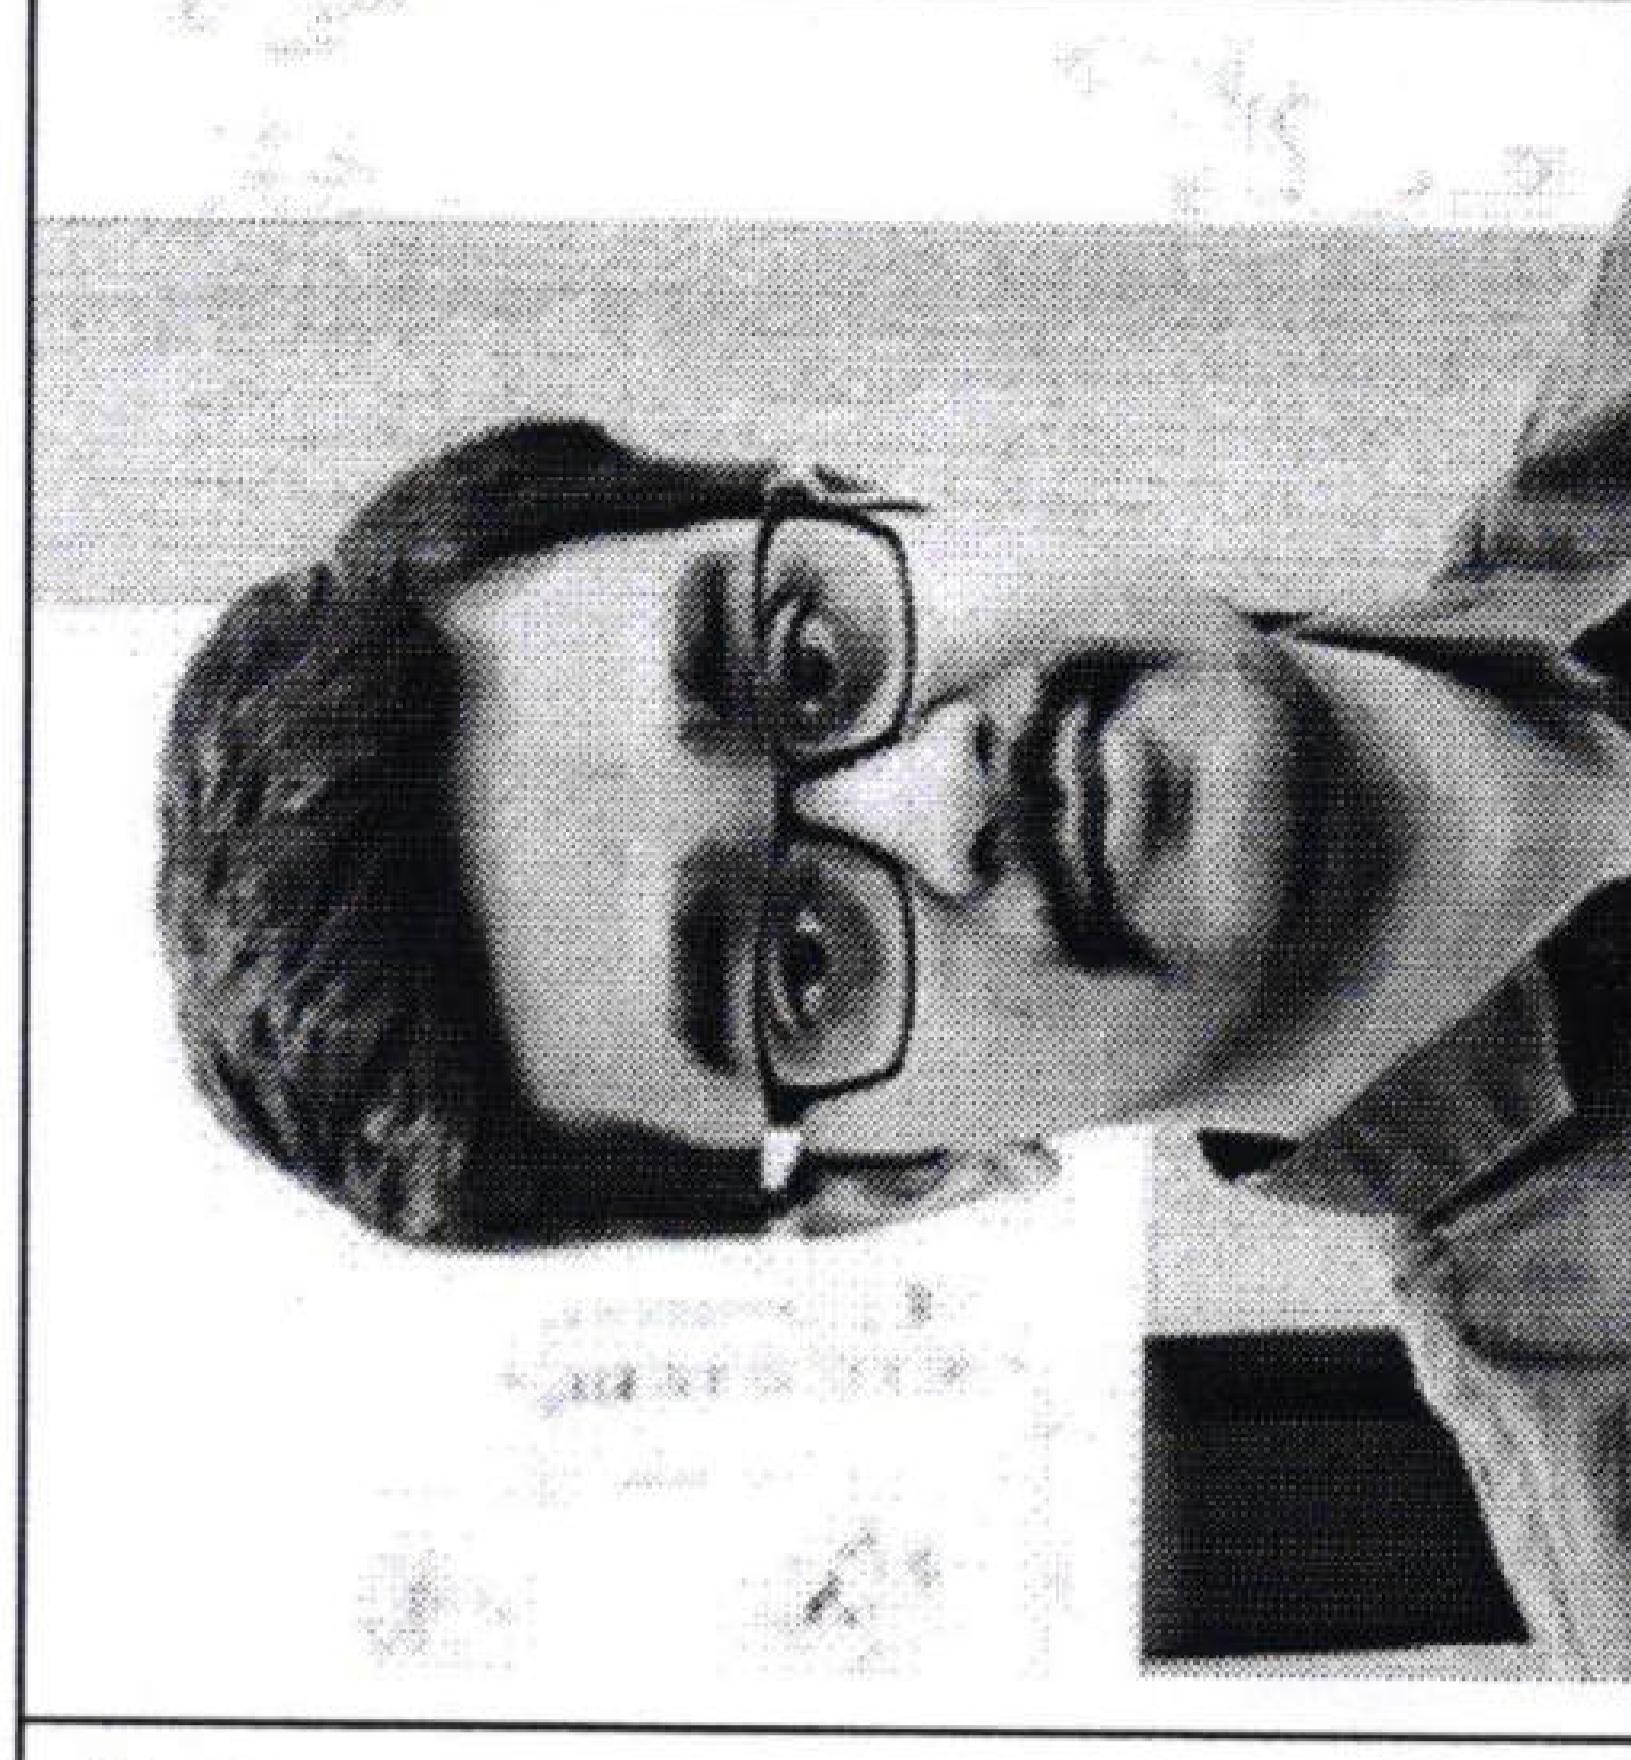

MIC is what motivated me to find my dream career. Thank you MIC for shaping me into who I am today.

ALUMNI MEET

Background

An Alumni Meet was organized on 16.03.2023 for the alumni of the departments of MCA/MBA of our college, at the Olive Tree Hotel in Bhavanipuram, Vijayawada.

Agenda:

- To get valuable advice of the Alumni in the overall development of the college
- To get as many of the alumni as possible under a common platform to celebrate their success stories, reminisce memories and look forward to the future with fervour and enthusiasm.

A Brief Report

The meet started at 10.30 am after all the alumni have joined in.

The Secretary welcomed the alumni and presented a report of the activities that are happening in the college.

The alumni shared their present status and their future plans.

The Secretary invited the guests to speak, on the occasion. All the guests have shared their experiences. Some of them has requested the alumni to give their valuable suggestions to improve the quality of education and to establish the world class infrastructure for enabling qualitative learning to the students.

Several alumni members have shared their views on the institute and gave some suggestions.

Some of the important points are noted as follows:

- It would be better to involve the active alumni members to in the teaching learning process through some interactive sessions and part course teaching.
- It is suggested to include the courses on the cutting-edge technologies so that the student has better chance for employment
- It is better to conduct student certification programs on the modern tools in collaboration with national and international organizations so that the student will be ready for the employment
- Digital classrooms may be introduced to enhance the teaching-learning process

The alumni felicitated the faculty who had taught them. All the Alumni were very happy as they were able to meet their friends, teachers and share their experience with them. They were also happy to see the development of the college.

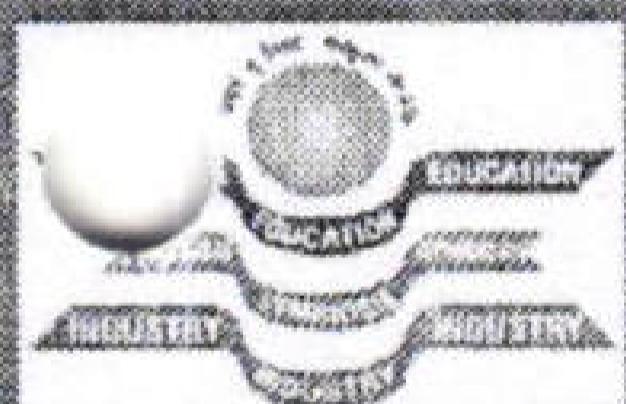

The Secretary has proposed vote of thanks. 26 students attended the meet and had a day full of memories.

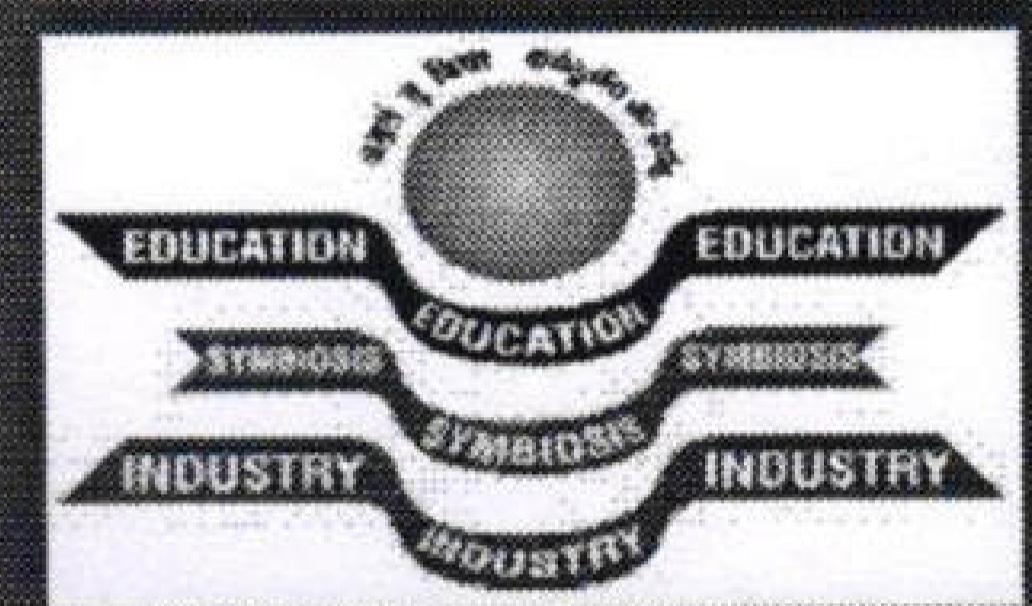

CHAITANYA POLIMETLA

*Academic year : 2006-2010
Associate Vice President,
@3rdFlix Visual Effects Pvt.
Ltd., Hyderabad*

- MIC has been a great learning avenue. A journey that has elated my career & had been a primary source of inspiration for my present day achievements.
- I would like to revisit the campus often to relive those days.

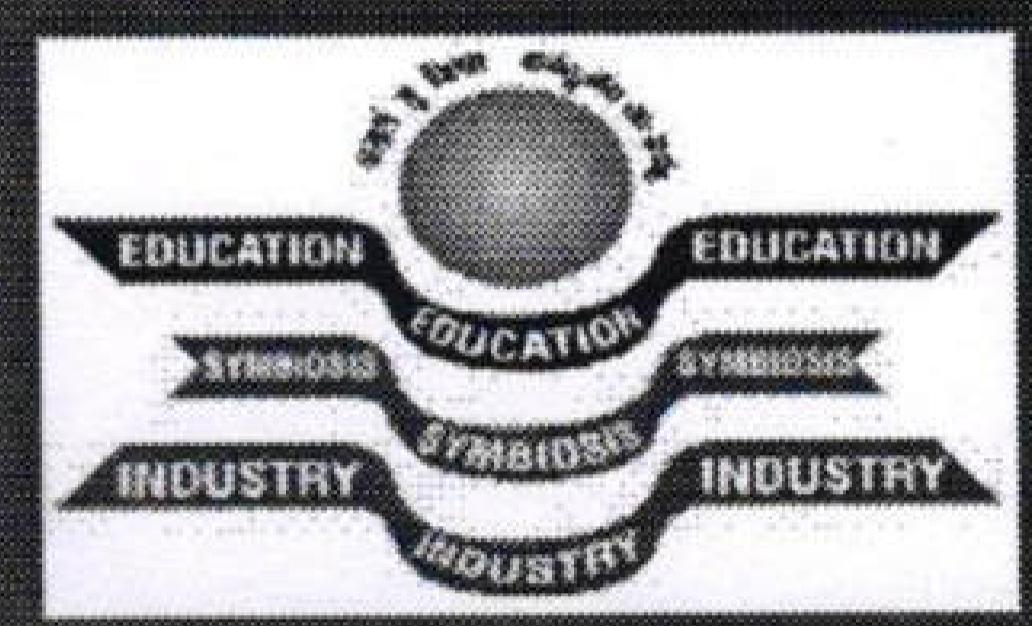

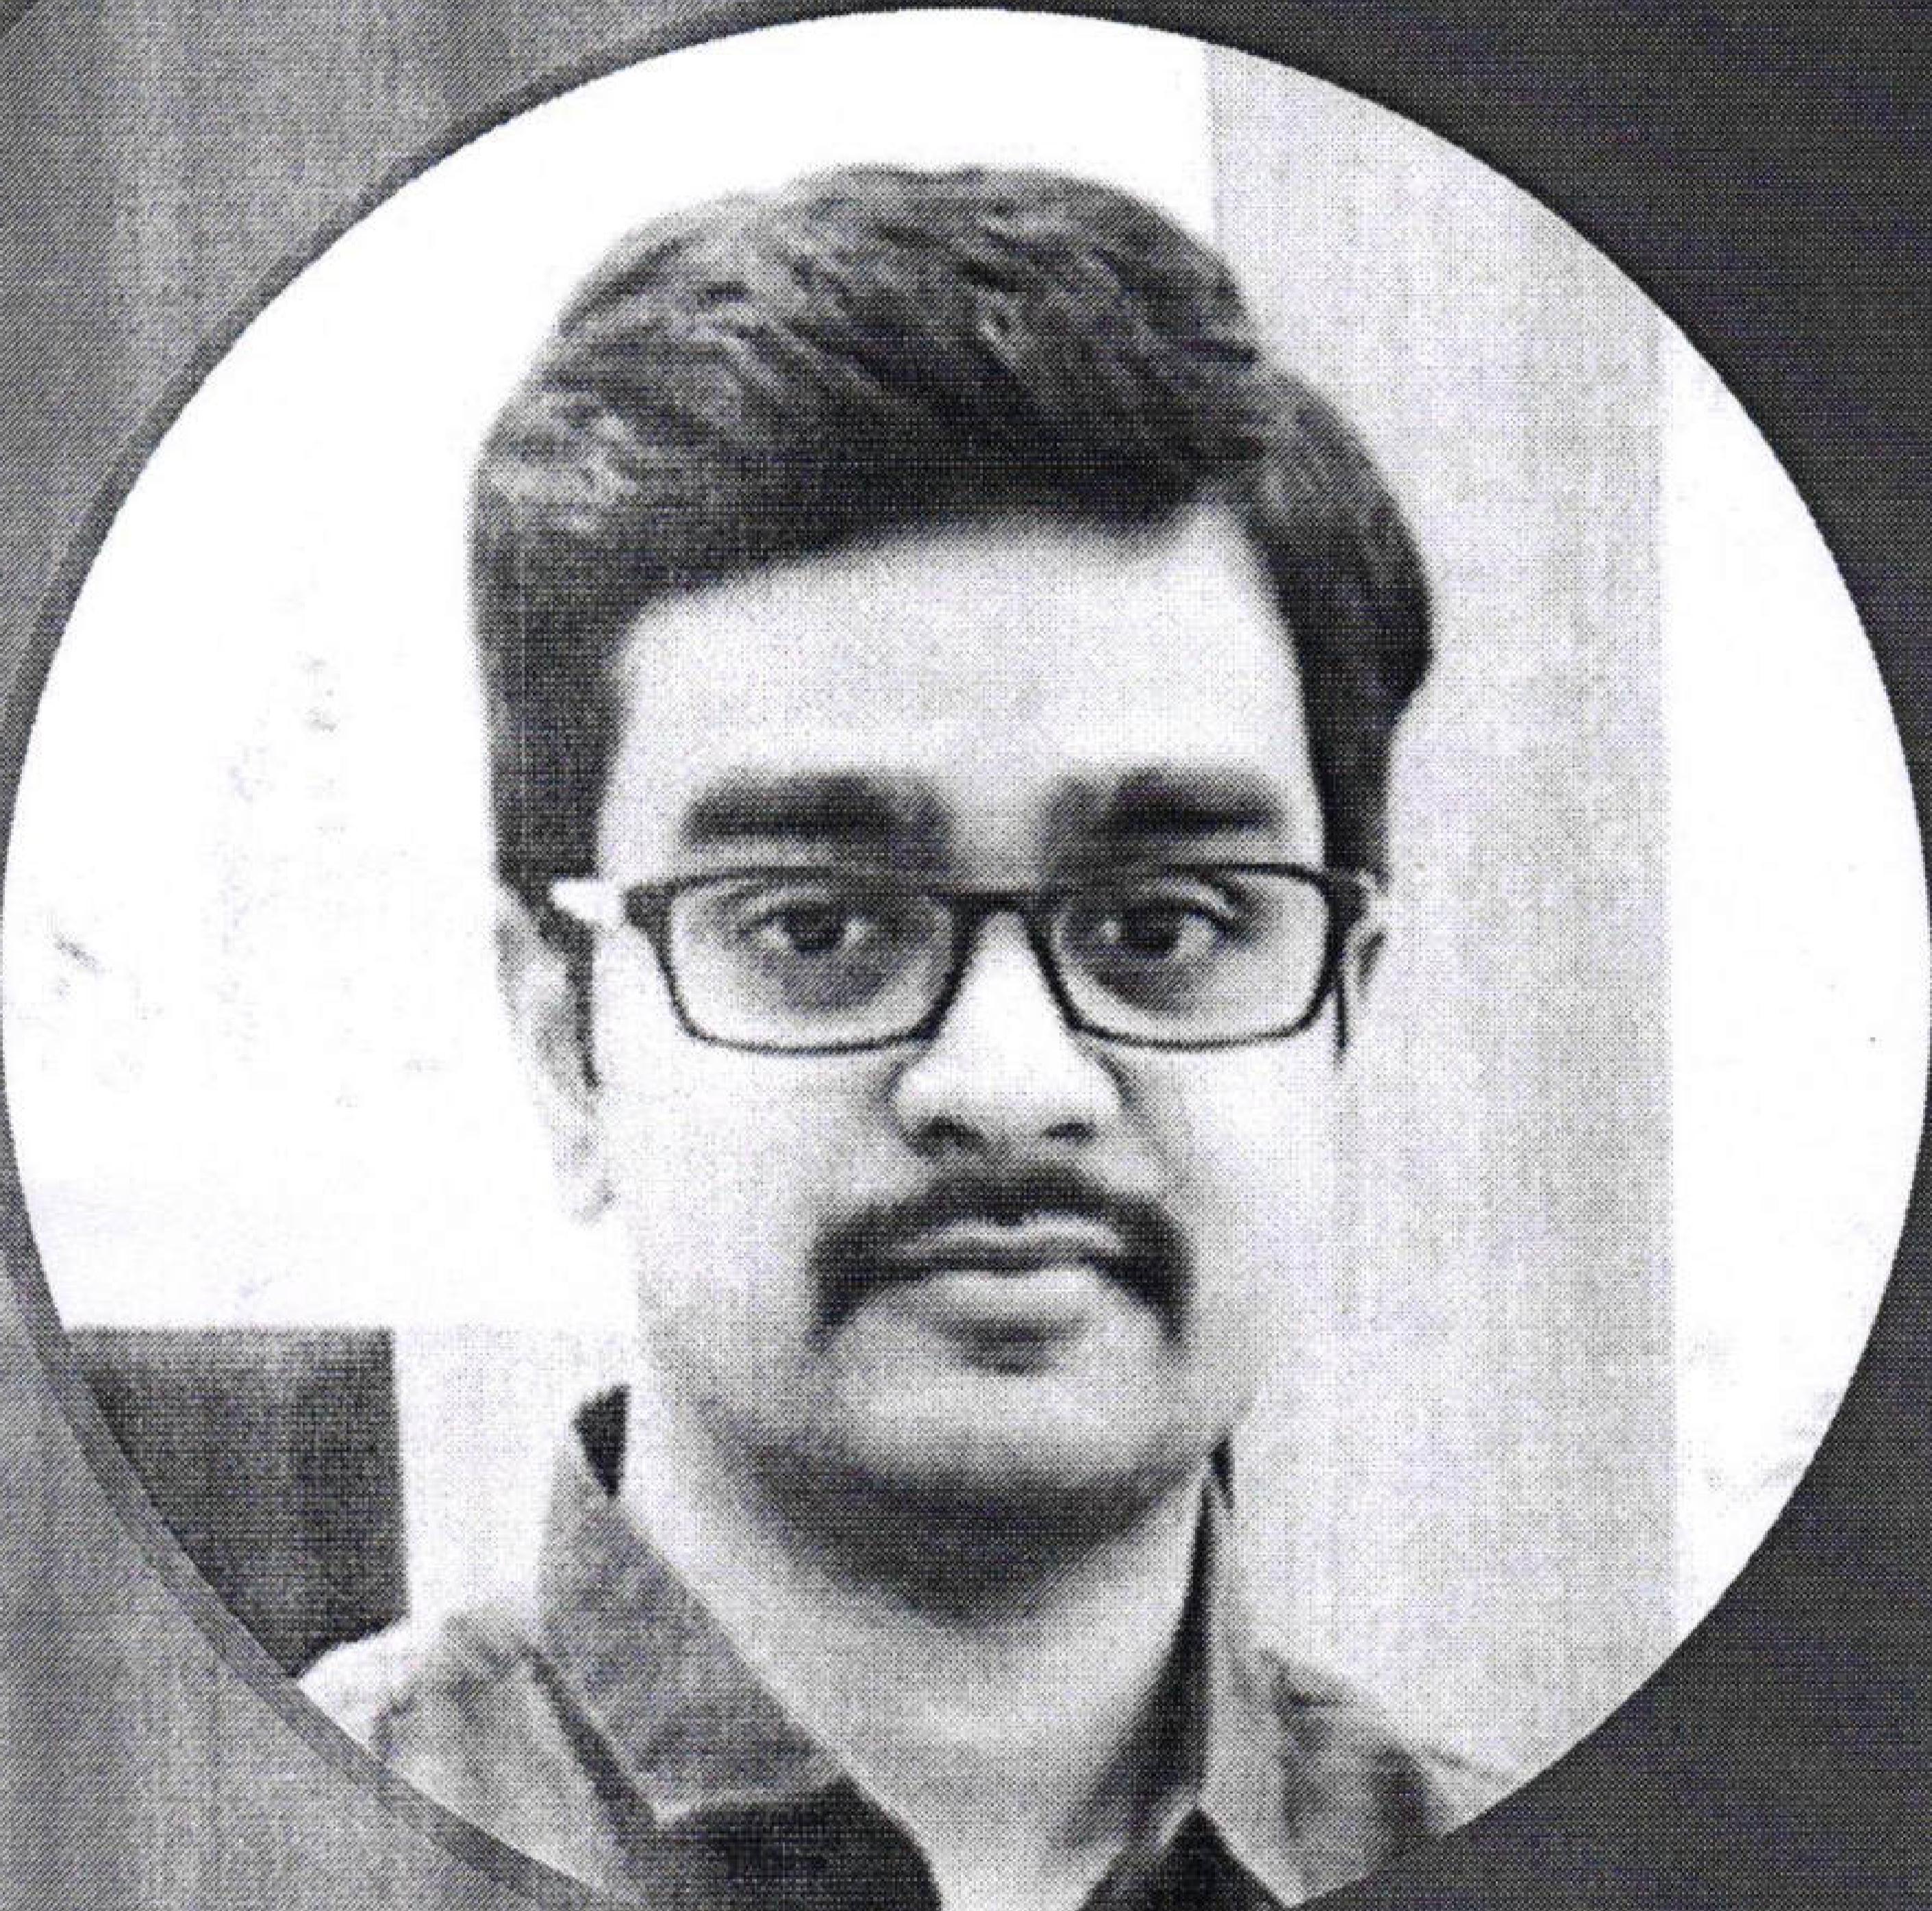

SANDEEP TANEERU

Academic year:2002-2006

*Vice President,
Citibank, Malaysia.*

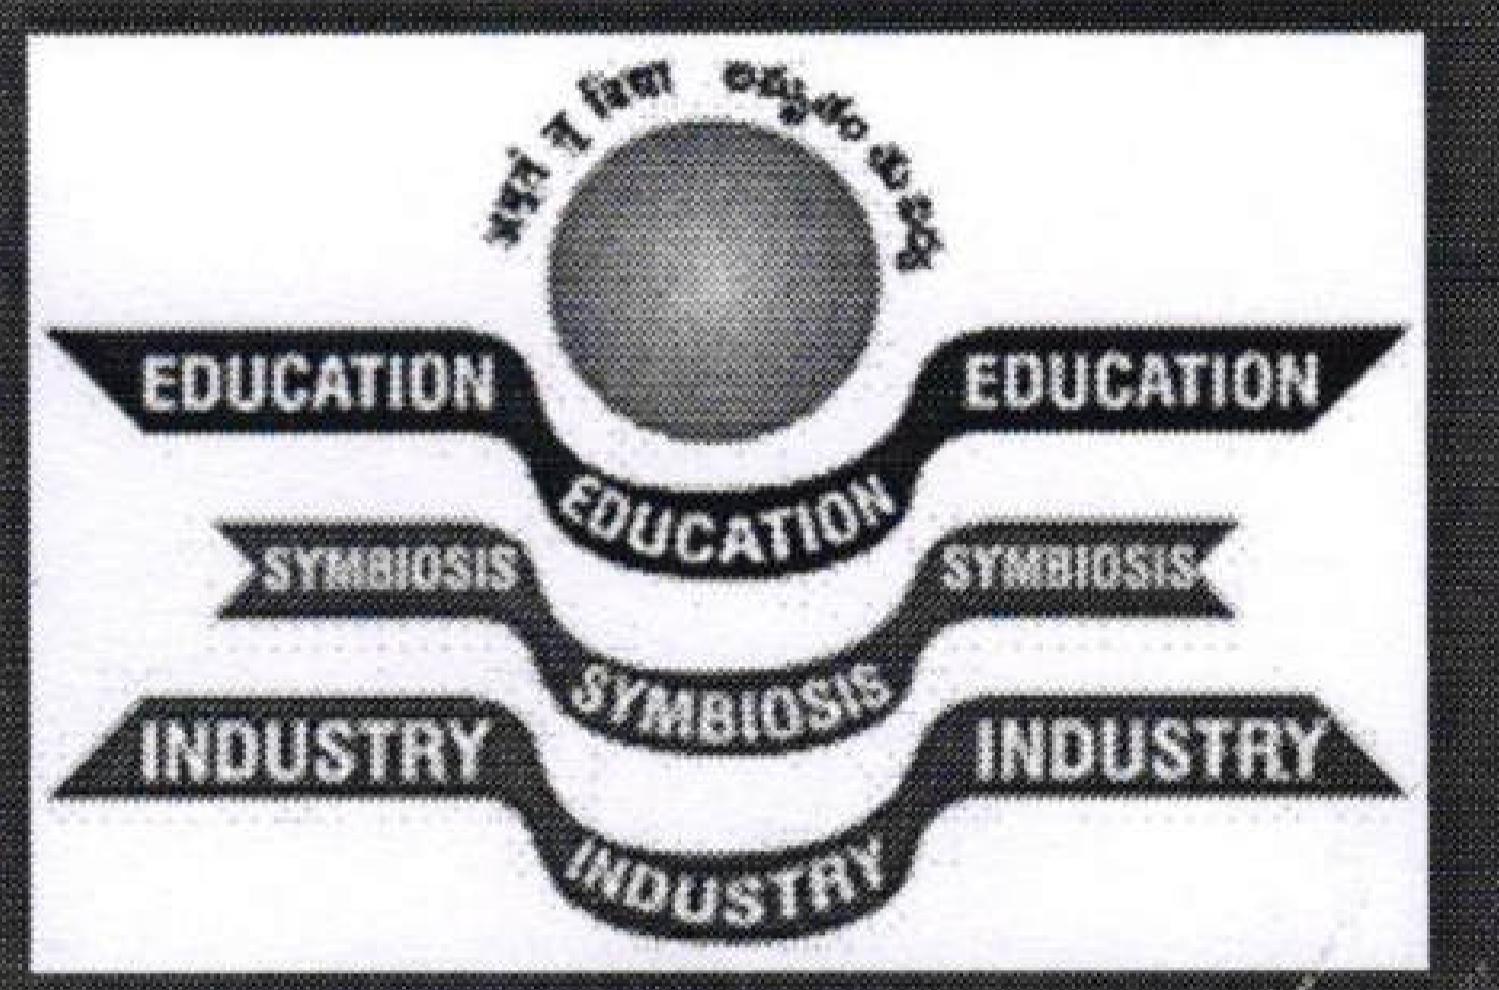

- IN MIC I HAD LEARNT THAT SUCCESS IS A JOURNEY, NOT THE DESTINATION.
- ALONG WITH ACADEMICS, A LOT OF DIFFERENT ACTIVITIES ON CAMPUS ALLOWED ME TO POLISH MY TALENTS AND OVERALL DEVELOPMENT.
- I HAD LEARNT NOT JUST TO BECOME A GOOD ENGINEER BUT A GOOD PERSON.

ABHINAV PRANEETH

*Academic year:2002-2006
Manager, Morgan Stanley
Bangalore, India.*

- IN DEPTH KNOWLEDGE OF THE FACULTY HELPED ME TO POSITION MYSELF INDUSTRY READY .
- I WOULD LIKE TO EXPRESS MY GRATITUDE TO MIC COLLEGE OF TECHNOLOGY FOR GIVING ME THE RIGHT PLATFORM AND KNOWLEDGE TO EXCEL IN MY PROFESSIONAL CAREER.

THANK YOU!

My college supported me a lot in various ways. Our professors mainly focused on the concepts and gave valuable inputs which helped me to get campus placement. Besides theoretical inputs, the well-equipped labs gave much scope for improving my practical knowledge. The co-curricular and extra-curricular activities organized by the college honed my interpersonal skills which really helped me to adapt to the multicultural ambience in my working environment. I can proudly say that MIC is not just an educational institute but it is an 'EMOTION' to all the Alumni.

Geethanjali Pusapati

Working at INFINERA as a SW QA ENGR 2
with package of 13.5LPA.

MIC college made me strong and independent girl. I was the class representative in ECE departments that helped me to develop leadership qualities in me.

I am thankful to all the teachers who supported and directed us throughout our engineering. I participated in many competitions which helped me to improve my confident levels. I would like to express my sincere gratitude to the placement cell for guiding me and providing me a right platform for my professional career.

Ch. Manohita

Working at WIPRO Limited in Bangalore.

The time which I spent in MIC was really enjoyable and the memorable. I just want to tell my juniors is that college is all about building friendships, building experiences, building connections, building relationships and more importantly building your future. It is a phase which will make you answer a lot of life's questions. In life, nobody will help you until you starts helping yourself. Your current situation gives an opportunity to re-evaluate what you want to become.

Vasavi Chennagiri

Working as Senior Human Resource -
Talent Aquisition in WIPRO Technologies.

Extremely amiable professors, here at MIC, impart both knowledge and moral values in the classroom—a much needed combination for today's world. This helped me in unleashing my true capabilities and transforming into a better individual. Splendid seminar halls and auditorium, fully furnished labs and library are the cherries on the cake. I entered MIC as a naive person. But I left MIC with all the skills required to face the actuality...

Ch. Manohita

Worked as an intern at Unistring Tech
Solutions, Hyderabad.
Now a Civil services aspirant.

I would like to suggest my juniors that first you decide in which field you have interest and want to work for eg -software, hardware, embedded or VLSI etc., |and then lead towards that direction. In today's world, we have everything on internet to gain knowledge and improve your skills. You can pursue many MOOC courses. Based on your skills apply for interview. Finally one day will be yours. Cheers and good luck kiddos.

Vamsi Yangala

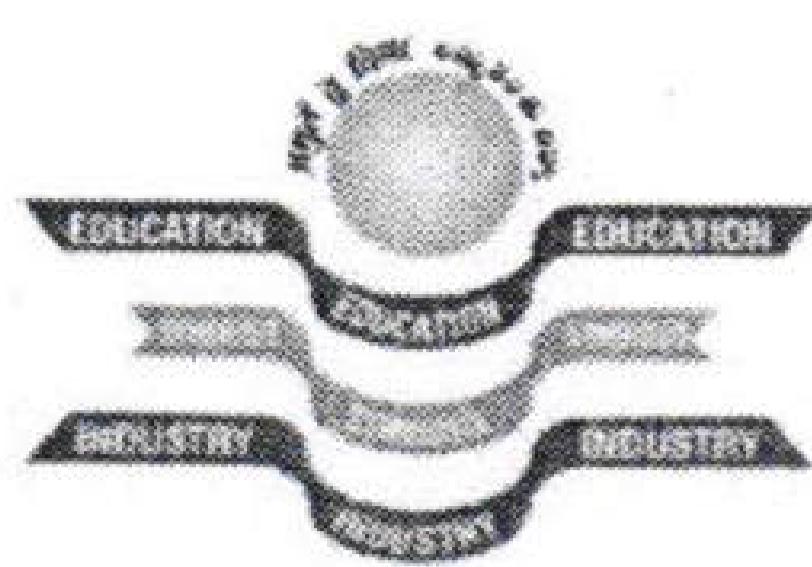

Working as Engineer in Zentree Labs.

My experience at MIC was great, fun and memorable one. It helped me to discover more about myself. Faculty members are very supportive and encourage students to achieve their goals. MIC not only helped me to gain academic knowledge but also helps students to improve their communication skills. Placement training is an important segment of the college which helped me to get selected in MNC company and instil confidence in me. I'm grateful to MIC College for making me a better person.

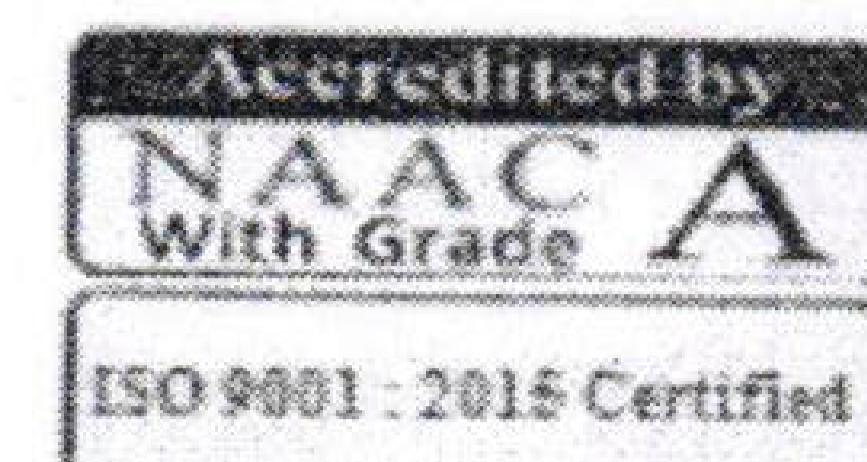

K. Eelokya
