Department of CIVIL Engineering

Academic Year: 2022-23

Name of the Event: Sketchup

Date: 17-11-2022 to 19-11-2022

Department: CE

Academic Year: 2022-2023

Topic: SketchupTraining

Date of the Event: 17-11-2022 to 19-11-2022

Resource Person: APSSDC Training

Name of the coordinator: S.V.T.K.Raju

Asst Professor, Dept of CE

Target Audience: B. Tech CE branch students

Total no of Participants:51

Objective of the event:

Engineers can use SketchUp to create 3D models of structural elements, electrical and Mechanical systems and other elements of a building or infrastructure project. In-depth 3D models of interiors, complete with furniture, lighting and decorative accents, can be made by interior designers using SketchUp. Including site planning, excavation and building foundations, contractors can use sketchup to visualize and plan construction projects.

Topics covered:

- 3D elevations with components of doors and windows etc..
- Rendering of 3 D elevation to get realistic appearance.

Outcomes of event: After completing this training course, students will

- 1. Students got knowledge how to draw 3D elevations with components of doors and windows etc..
- 2. Students learnt how to render 3 D elevation to get realistic appearance.

Feedback / Suggestions: Students are participated in enthusiastic manner.

Planned to organize every year.

Description:

The Department of Training & placement cell organized "Byte XL", and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual's personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person's work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcome of event: After completing this training course, students will be able to

- 1. Enhance the Aptitude Round Clearing ability in interview process
- 2. Solve the real-time problems for performing job functions easily
- 3. Interpret the concepts of LOGICAL REASONING Skills
- 4. Develop effective communication skills (spoken and written).

Feedback / Suggestions: Students are participated in enthusiastic manner. Planned to organize every year.
