Criteria-6

6.1. Institutional Vision and Leadership

6.1.1 The institutional governance and leadership are in accordance with the vision and mission of the Institution and it is visible in various institutional practices such as NEP implementation, sustained institutional growth, decentralization, participation in the institutional governance and in their short term and long term Institutional Perspective Plan:

Institutional perspective plan

The institute plans for the future and strategizes its plan for the years to come in a planned manner. The institute prepares the list of focus areas and the initiatives to be taken up to achieve the targets in a strategic way.

A first step, the Institute would like to strength the campus facilities, support systems by modernizing the laboratories in sync with latest technologies & provide online access to library resources to meet the needs of academia & research.

Research & consultancy is another area of immediate focus where faculty shall be motivated towards quality research publications and externally funded projects with a thrust on industry Collaboration.

The institute thrives to improve the curriculum offered to its students continuously by including the feedback provided by the stakeholders & brain storming sessions to be conducted with academic, research & industry experts regularly.

Improving the teaching learning process by adopting the NEP 2020 in a big way has begun. We shall implement active learning and ICT tools in all classrooms to provide enhanced learning experience.

In the process of achieving higher success, apart from the above listed targets, the institute plans for a developing the academic ambience for the years to come. In this aspect the Institute has listed various thrust areas to work upon.

With an eye on the long term needs to make our students globally competitive & knowledgeable, we plan to modernize all the infrastructural facilities &Viz academic, Research & support services to increase the learning experience with latest technology.

The institute plans to enhance the percentage of faculty with doctorial & higher degrees by way of encouraging existing faculty to achieve higher qualification & recruit new faculty as and when needed, with higher qualification from institutes of national importance. The institute shall thrive to provide additional skill sets by adopting digital learning, e-learning and blended learning and enhanced collaborative learning laboratories.
