**Academic Year:** 2018-19

**Topic:** Aptitude, Reasoning and verbal Ability

**Date of the Event:** 26.06.2018-30.06.2018

**Target Audience:** B. Tech (CSE, ECE, MECH, CIVIL) Students

Total no of Participants: 200

**Description:**

The Department of Training & placement cell organized "Aptitude, Reasoning and verbal Ability", and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

**Outcomes of the Event:**

After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process

2. Solve the real-time problems for performing job functions easily

3. Interpret the concepts of Logical Reasoning Skills

4. Acquire satisfactory competency in use of Verbal Reasoning

**Description:**

The Department of Training & placement cell organized **"WIPRO Training"**, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual's personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person's work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies.The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.
