Department of Electrical & Electronics Engineering

Academic Year: 2018-19

Name of the Event: CCCTraining

Date of the Event: 24-08-2018 to 28-08-2018

Resource Person: TalentioSolutions India Pvt Ltd

Name of the coordinator: Mr M.Tharun

Asst. Prof, Dept. of EEE

Target Audience: IV B. Tech Students

Total no of Participants: 14

Description:

The Department of Training & placement cell organized "**CCCTraining**", and is specially meant for engineering final students.The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. Students who have completed this course will get a basic idea about email, internet search, and business concepts. This is also a beginner's course for people looking to do some higher courses in computer science. The topics for this course have been selected with care to give the students a clean concept. Overall, it's a rudimentary course designed to provide awareness about information technology.

Course contents:
1: Introduction to computer concepts
2: Introduction to Operating systems
3: Basic concepts about Word
4: Elementary concepts of Spreadsheets
5: Introduction to the Internet, web browsers and WWW
6: Communication and Collaboration
7: Application of presentation
8: Application of Digital Financial Services

Outcome of event: After completing this training course, students will be able to

1. Demonstrate critical thinking.
2. Communicate effectively orally and in writing, and through other modes of expression.
3. Utilize research, apply scientific reasoning and mathematical concepts, and employ creative techniques to solve problems
4. Demonstrate knowledge and skill proficiency in a program of study.
5. Apply information literacy skills necessary to support continuous, lifelong learning.
6. Demonstrate cultural and global awareness and civic knowledge.
7. Demonstrate growth in professional and personal development.

Feedback / Suggestions: Students are participated in enthusiastic manner.
Planned to organize every year.

Description:

The Department of Training & placement cell organized **"Infosys Training"**, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual's personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person's work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcome of event: After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Develop effective communication skills (spoken and written).

Target Audience: IV B. Tech Students

Total no of Participants: 44

Description:

Objectives – Salesforce Administrator

This Salesforce Developer training for App Builder and Administrator is specifically designed to give you hands-on experience in the following topics:

- Salesforce CRM and its features
- Salesforce objects, field types, and validation rules
- Data modeling and management
- Setup and user management
- Security and data access
- Workflow automation
- Sales and service cloud configuration
- Lightning components installation
- Salesforce interface
- Application deployment and Force.com platform change management
- User interface configuration
- Preparing for Salesforce Administration (ADM 201) and App Builder certification exams

Prerequisites

There are no specific prerequisites for joining this Salesforce Developer training course. Anybody can opt for this Salesforce Admin certification. However, prior experience as a developer or administrator will definitely give a boost to your learning path here.
